NC 1500-2.2 Assistive Technology Device

Assistive technology device means any item, piece of equipment, or product system, whether acquired commercially off the shelf, modified, or customized, that is used to increase, maintain, or improve the functional capabilities of a child with a disability. (Authority: 20 U.S.C. 1401(2); 34 CFR 300.6)

NC 1500-2.4 Child with a Disability

(a) General

- (1) Child with a disability means a child evaluated in accordance with NC 1503-2.5 through NC 1503-3.5 as having autism, deaf-blindness, deafness, developmental delay (applicable only to children ages three through seven), hearing impairment, intellectual disability, multiple disabilities, orthopedic impairment, other health impairment, serious emotional disability, specific learning disability, speech or language impairment, traumatic brain injury, or visual impairment (including blindness), and who, by reason of the disability, needs special education and related services.
- (2) (i) If it is determined, through an appropriate evaluation under NC 1503-2.5 through NC 1503-3.5, that a child has one of the disabilities identified in paragraph (a)(1) of this section, but only needs a related service and not special education, the child is not a child with a disability

under IDEA.

(ii) If the only service required by the child is speech language, it is considered special education rather than a related service and the child would be determined to be a child with a disability under paragraph (a)(1) of this section.

(b) Definitions of disability terms. The terms used in this definition of a child with a disability are defined as follows:

- (1) Autism means a developmental disability significantly affecting verbal and nonverbal communication and social interaction, generally evident before age three, which adversely affects a child's educational performance. Other characteristics often associated with autism are engagement in repetitive activities and stereotypical movements, restricted interests, resistance to environmental change or change in daily routines, and unusual responses to sensory experiences. Autism does not apply if a child's educational performance is adversely affected primarily because the child has an emotional disability, as described in paragraph (b)(5) of this section. A child who manifests the characteristics of autism after age three could be identified as having autism if the criteria in paragraph (b)(1)(i) of this section are satisfied.
 - (2) Deaf-blindness means hearing and visual impairments that occur together, the combination of which causes such severe communication and other developmental and educational needs that they cannot be accommodated in special education programs solely for children with deafness or children with blindness.
 - (3) Deafness means a hearing impairment that is so severe that the child is impaired in processing linguistic information through hearing, with or without amplification that adversely affects the child's educational performance.
 - (4) Developmental delay means a child aged three through seven, whose development and/or behavior is delayed or atypical, as measured by appropriate diagnostic instruments and procedures, in one or more of the following areas: physical development, cognitive development, communication development, social or emotional development, or adaptive development, and who, by reason of the delay, needs special education and related services.
 - (5) Emotional disability means a condition exhibiting one or more of the following characteristics over a long period of time and to a marked degree that adversely affects a child's educational performance: an inability to make educational progress that cannot be explained by intellectual, sensory, or health factors; an inability to build or maintain satisfactory interpersonal relationships with peers and teachers; inappropriate types of behavior or feelings under normal circumstances; a general pervasive mood of unhappiness or depression; and/or a tendency to develop physical symptoms or fears associated with personal or school problems. Emotional disability includes schizophrenia. The term does not apply to children who are socially maladjusted, unless it is determined that they have an emotional disability under paragraph (b)(5) of this section.
 - (6) Hearing impairment means impairment in hearing, whether permanent or fluctuating, that adversely affects a child's educational performance but that is not included under the definition of deafness in this section. The term "hard of hearing" may be used in this capacity.
 - (7) Intellectual disability means significantly subaverage general intellectual functioning, existing concurrently with deficits in adaptive behavior and manifested during the developmental period, that adversely affects a child's educational performance. The term "intellectual disability" was formerly termed "mental retardation."
 - (8) Multiple disabilities means two or more disabilities occurring together (such as intellectual disability blindness, intellectual disability orthopedic impairment, etc.), the combination of which causes such severe educational needs that they cannot be accommodated in special education programs solely for one of the impairments. Multiple disabilities does not include deaf blindness.
 - (9) Orthopedic impairment means a severe physical impairment that adversely affects a child's educational performance. The term includes impairments caused by a congenital anomaly, impairments caused by disease (e.g., poliomyelitis, bone tuberculosis, etc.), and impairments from other causes (e.g., cerebral palsy, amputations, and fractures or burns that cause contractures, etc.).
 - (10) Other health impairment means having limited strength, vitality or alertness, including a heightened alertness to environmental stimuli, that results in limited alertness with respect to the
-

educational environment, that-- Is due to chronic or acute health problems such as asthma, attention deficit disorder or attention deficit hyperactivity disorder, diabetes, epilepsy, a heart condition, hemophilia, lead poisoning, leukemia, nephritis, rheumatic fever, sickle cell anemia, and Tourette's Syndrome, etc.; and adversely affects a child's educational performance.

(11) Specific learning disability

- (i) General. Specific learning disability means a disorder in the processes involved in understanding or in using language, spoken or written, that may manifest itself in the impaired ability to listen, think, speak, read, write, spell, or to do mathematical calculations. Conditions may include, but are not limited to, dyslexia and dyscalculia; and
- (ii) Disabilities not included. Specific learning disability does not include learning problems that are primarily the result of visual, hearing, or motor disabilities, of intellectual disability, of emotional disturbance, or of environmental, cultural, or economic disadvantage.

(12) Speech or language impairment means-A communication disorder, such as an impairment in fluency, articulation, language, or voice/resonance that adversely affects a child's educational performance. Language may include function of language (pragmatic), the content of language (semantic), and the form of language (phonologic, morphologic, and syntactic systems). A speech or language impairment may result in a primary disability or it may be secondary to other disabilities.

(13) Traumatic brain injury means an acquired injury to the brain caused by an external physical force or by an internal occurrence resulting in total or partial functional disability and/or psychosocial impairment that adversely affects a child's educational performance. Causes may include but are not limited to, open or closed head injuries, cerebrovascular accidents (e.g., stroke, aneurysm), infections, kidney or heart failure, electric shock, anoxia, tumors, metabolic disorders, toxic substances, or medical or surgical treatments. The brain injury can occur in a single event or can result from a series of events (e.g., multiple concussions). Traumatic brain injury also can occur with or without a loss of consciousness at the time of injury. Traumatic brain injury may result in impairments in one or more areas, such as cognition; language; memory; attention; reasoning; abstract thinking; judgment; problem-solving; sensory, perceptual, and motor abilities; psychosocial behavior; physical functions; information processing; and speech. Traumatic brain injury does not apply to brain injuries that are congenital or degenerative but can include brain injuries induced by birth trauma.

(14) Visual impairment including blindness means an impairment in vision that, even with correction, adversely affects a child's educational performance. The term includes both partial sight and blindness.

(Authority: 20 U.S.C. 1401(3); 1401(30); 34 CFR 300.8; 115C-106.3(1)(2))

NC 1500-2.5 Comprehensive Assessment System

Comprehensive assessment system- The data gathered within this assessment system is designed to allow effective problem solving at all tiers and across all student groups (i.e., subgroups), in order to design responsive instruction for all students. These components are also important data sources within a comprehensive evaluation to determine if a child has a Specific Learning Disability and the nature and extent of the special education and related services the child needs. A comprehensive assessment system includes the following components:

- (a) Common formative assessments.
- (b) Interim/Benchmark assessments.
- (c) Outcome assessments.
- (d) Universal screening.
- (e) Progress monitoring; and
- (f) Diagnostic assessments.

NC 1500-2.6 Consent

Consent means that--

- (a) The parent has been fully informed of all information relevant to the activity for which consent is sought, in his or her native language, or other mode of communication.
- (b) The parent understands and agrees in writing to the carrying out of the activity for which his or her consent is sought, and the consent describes that activity and lists the records (if any) that will be released and to whom; and
- (c) The parent understands that the granting of consent is voluntary on the part of the parent and may be revoked at any time.
 - (1) If a parent revokes consent, that revocation is not retroactive (i.e., it does not negate an action that has occurred after the consent was given and before the consent was revoked).
 - (2) If the parent revokes consent in writing for their child's receipt of special education services after the child is initially provided special education and related services, the public agency is not required to amend the child's education records to remove any references to the child's receipt of special education and related services because of the revocation of consent.

(Authority: 20 U.S.C. 1414(a)(1)(D); 34 CFR 300.9)

NC 1500-2.7 Day; Business Day; School Day

- (a) Day means calendar day unless otherwise indicated as a business day or school day.
- (b) Business day means Monday through Friday, except for Federal and State holidays.
- (c) School day means any day, including a partial day, that children are in attendance at school for instructional purposes.
 - (1) School day has the same meaning for all children in school, including children with and without disabilities.

(Authority: 20 U.S.C. 1221e-3; 34 CFR 300-11)

NC 1500-2.8 Diagnostic Assessments

Diagnostic assessments and processes are used to assist in developing hypotheses about why a problem is occurring and to identify a student's specific skill deficits and strengths in order to determine the instructional focus and to inform decisions about how to adapt and individualize interventions. They allow instruction and interventions to be focused on the specific target skill and sets of skills that will increase overall academic or behavioral competency. They assist educators in teaching precisely to realize the largest gains in student achievement.

NC 1500-2.9 Dyslexia

Dyslexia is a specific learning disability that is neurobiological in origin. It is characterized by difficulties with accurate and/or fluent word recognition and by poor spelling and decoding abilities. These difficulties typically result from a deficit in the phonological component of language that is often unexpected in relation to other cognitive abilities and the provision of effective classroom instruction. Secondary consequences may include problems in reading comprehension and reduced reading experience that can impede growth of vocabulary and background knowledge.

(Authority: HB 149)

NC 1500-2.10 Early Intervening Services

The term early intervening services refers to the delivery of scientifically based instruction/interventions to students who demonstrate academic or behavioral difficulty. Instruction/interventions are intended for students who are not currently identified as needing special education but who need additional support to succeed in the classroom. Early intervening services also include the provision of professional development for teachers and staff to enable them to deliver appropriate instruction/intervention along

with instruction in literacy and the use of adaptive and instructional software.

(Authority: 34 CFR 300.226(b)(1); and (2); 300.646(d) and (e).

NC 1500-2.11 Elementary School

Elementary school means a nonprofit institutional day or residential school, including a public elementary charter school that provides elementary education, as determined under State law.

(Authority: 20 U.S.C. 1401(6); 34 CFR 300.13)

NC 1500-2.12 English Learner

NC 1500-2.13 Equipment

Equipment means--

- (a) Machinery, utilities, and built-in equipment, and any necessary enclosures or structures to house the machinery, utilities, or equipment; and
- (b) All other items necessary for the functioning of a particular facility as a facility for the provision of educational services, including items such as instructional equipment and necessary furniture; printed, published and audio-visual instructional materials; telecommunications, sensory, and other technological aids and devices; and books, periodicals, documents, and other related materials.

(Authority: 20 U.S.C. 1401(7); 34 CFR 300.14)

NC 1500-2.14 Evaluation

- (a) General Evaluation means procedures used in accordance with NC 1503-2.5 through NC 1503-3.5 to determine whether a child has a disability and the nature and extent of the special education and related services that the child needs.

A full and individualized evaluation of a child's needs must be conducted before any action is taken with respect to the initial placement of a student with a disability in a special education program. Eligibility of children must be determined by using multiple sources of data and must not be dependent upon single test scores. Evaluation procedures may include, but are not limited to, observations, interviews, progress monitoring data, behavior checklists, structured interactions, play assessment, adaptive and developmental scales, criterion-referenced and norm referenced instruments, clinical judgment, and tests of basic concepts or other techniques and procedures as deemed appropriate by the professional(s) conducting the evaluations. When eligibility for specific learning disability is being determined, evaluation data must include progress monitoring data.

Note: The determination of needed screenings and evaluations is based upon the unique needs of the student and not solely on the requirements for the suspected disability category.

- (b) Definitions of evaluations and screenings. Evaluations and screenings for determining eligibility for special educational services are defined as follows:

- (1) Adaptive Behavior Evaluation

The adaptive behavior evaluation refers primarily to the effectiveness with which the individual generally meets the standards of personal independence and social responsibility expected of his/her age and cultural group. It has two major facets:

- (i) the extent to which the individual is able to function independently; and

- (ii) the extent to which he/she satisfactorily meets the culturally imposed demands of personal and social responsibility. Evaluations of adaptive behavior look at the total environment of the child. Adaptive behavior information shall be obtained from two sources, one of which must be the child's parent, as defined by NC 1500-2.2427, unless attempts to gather parental input are not successful. Unsuccessful attempts to obtain adaptive behavior input from the parent must be documented. In that event, another person who knows the child must be sought. An adaptive behavior evaluation may be included as part of the psychological evaluation, and for preschool children, it also may be part of the educational evaluation. It must be conducted by professional personnel who are trained in the assessment of adaptive behavior and in the interpretation of the assessment results.
- (2) Audiological Evaluation
An audiological evaluation is an examination by a licensed audiologist to determine auditory acuity, auditory perception, and amplification needs. Whenever possible, the evaluation shall include air conduction testing, bone conduction testing, acoustic immittance measures (e.g., tympanometry), speech reception, discrimination and/or perception testing with amplification and without amplification. When behavioral audiometric testing is not feasible or is unreliable, auditory brain stem responses and/or otoacoustic emissions are to be used.
- (3) Behavioral assessment related to Autism Spectrum Disorder
An assessment conducted by trained and knowledgeable personnel using behavior rating tools measuring the range of characteristics associated with Autism Spectrum Disorder, yielding information of the child's functioning across environments. This assessment may also include individually administered instruments that assesses the range of characteristics associated with autism spectrum disorder.
- (4) Braille Skills Inventory/Learning Media Assessment
The inventory/assessment is an appraisal of the child's most efficient reading medium (Braille and/or print). Items to be considered may include, but are not limited to, noting the working distance from the page, reading rates and accuracy, visual fatigue, and tactile discrimination.
- (5) Functional Vision Assessment
A functional vision assessment is an assessment conducted by a licensed teacher of children with visual impairments, or other qualified personnel, that provides information on how a student uses vision in familiar and unfamiliar educational and functional settings. It is intended to inform about the impact of a vision condition on a student's learning.
- (6) Educational Evaluation
An educational evaluation is an evaluation of a child's educational functioning in relation to his/her current educational program. The results of this evaluation are expressed in terms of both the child's academic and/or developmental strengths and needs. This evaluation must be comprehensive, using a full range of available instruments and observations, including diagnostic tests and other appropriate formal and informal measures, such as curriculum-based measurement or other progress monitoring data. An educational evaluation must be conducted by a licensed teacher or other appropriate professional, who has been trained on the administration of the assessment, unless additional restrictions are defined by the authors of the evaluation instrument and should measure the child's progress in learning and skill acquisition. If educational strengths and needs have been addressed and reported as part of other required evaluations (e.g., psychological evaluation), then no further educational evaluation is needed.
- (7) Health Screening
Health screening may include, but is not necessarily limited to, as many of the following areas as may be appropriate: vision screening, hearing screening, dental screening, review of health history, review of developmental milestones, assessment of physical growth and assessment of nutritional status. Health screening may be performed by a school nurse or other appropriately trained persons.
- (8) Medical Evaluation
Medical evaluations must be conducted by appropriately trained and/or licensed health professionals.
-

(9) Motor Screening

Motor screening includes reviewing written and verbal information, observing the child in a variety of settings and/or administering screening instruments to determine adequacy of motoric functioning and need for further evaluation. Persons who may screen motor skills are psychologists, specially trained teachers of children with disabilities including adapted physical education teachers, occupational therapists, physical therapists, and other health professionals.

(10) Motor Evaluation

A motor evaluation obtains and provides information to assess a student's current level of motoric functioning and any problems encountered in performing motor tasks. This information may be collected through review of educational and medical records; interviews with teachers, parents, and others, including the student; clinical observations; and the administration of formal testing instruments, procedures, and techniques. A motor evaluation should include, but is not limited to, as many of the areas listed below as may be appropriate:

- (i) musculoskeletal status.
- (ii) neuromotor/neurodevelopmental status.
- (iii) gross-motor development and coordination.
- (iv) fine-motor development and coordination.
- (v) sensory-motor skills.
- (vi) visual-motor skills.
- (vii) bilateral coordination.
- (viii) postural control and balance skills.
- (ix) praxis/motor planning skills.
- (x) oral-motor skills; and
- (xi) gait and functional mobility skills.

Motor evaluations are performed by physical therapists or occupational therapists. Oral-motor skills may be assessed by speech-language pathologists when appropriate.

(11) Observation

Observations of school aged children usually occur in the regular classroom and/or settings related to the area(s) of concern and must document areas of strength as well as areas of need. Observations of school aged children shall assess academic skills and functional skills, which includes behavior.

Observations of preschool children should occur in the natural environment; that is, the setting within the community where preschool children without disabilities usually are found (home, childcare, preschool classes, Head Start, etc.) and must document areas of strength and areas which are the focus of concern. Observational data on preschool children may include interactions with persons and objects, and compliance with structure, taking into consideration age-appropriate expectations.

Observations may be conducted by a teacher (who is not the teacher of the child), social worker, program coordinator, school psychologist, related services provider or other involved professional. Observations cannot be limited to assessment observations and must include a third-party observation.

(12) Ophthalmological or Optometric Evaluation

An ophthalmological or optometric evaluation is an evaluation by an ophthalmologist or optometrist to determine visual acuity and function and whether or not magnification is needed.

(13) Otological Evaluation

An otological evaluation is an evaluation by a licensed otologist to determine the presence or absence of ear pathology and the need for medical treatment.

(14) Progress monitoring

Progress monitoring refers to an evidence-based practice used to assess students' academic and/or behavioral performance and evaluate the effectiveness of instruction and/or specific interventions. Progress monitoring can be implemented with individual students, groups of students, or an entire class. Central to the practice is data-based documentation of repeated

assessments that produce quantitative results that are charted over time to document rates of improvement. The measures should be brief, reliable, valid, sensitive, linked to the area of intervention/instruction, and measure the same construct/skill over time. Embedded assessments within evidence-based intervention programs can also be an important source of progress monitoring data for students that are performing well below grade level. Students who are performing very far below expected levels may be progress-monitored the most frequently with these types of measures but should also receive periodic progress monitoring using a general outcome measure in order to ensure skills are transferring to content that is closer to grade level expectations.

(15) Psychological Evaluation

A psychological evaluation is an assessment of cognitive functioning and may also include, but not be limited to, assessments of educational performance, social/emotional/behavioral functioning, and adaptive behavior. Procedures used by the psychologist may include formal and informal assessment measures, observations, interviews, and other techniques as deemed appropriate by the psychologist. The assessment of cognition may include intelligence, memory, reasoning, problem solving, attending, and processing. Where these instruments are clearly inappropriate as standardized, the psychologist should use his/her professional judgment about the selection of instruments for assessing the intellectual functioning of children. Psychological evaluations shall be performed by DPI- or Board- licensed psychologists. School psychologists employed by the public schools must be licensed by the State Department of Public Instruction. Psychologists contracting with schools on a private basis must be licensed as psychological associates or practicing psychologists by the North Carolina Psychology Board. When contracting with state agencies for psychological services, the local education agency's contract must be with the agency and not with the individual psychologist.

(16) Sensory processing evaluation

Sensory evaluations are performed by occupational therapists. A sensory processing evaluation collects, organizes, and analyzes information specific to how a student's current level of sensory processing impacts occupational performance and participation at school. This information may be gathered through review of educational and medical records; interviews with the student, teachers, parents, and others; detailed, in-context observations; and the administration of formal testing instruments, procedures, and techniques. A sensory processing evaluation should include, but is not limited to, as many of the areas listed below as may be appropriate:

- (i) intensity of response to various sensory experiences, including
 - (a) visual stimuli
 - (b) auditory stimuli
 - (c) olfactory stimuli
 - (d) tactile stimuli
 - (e) taste stimuli
 - (f) vestibular stimuli
 - (g) proprioceptive stimuli
- (ii) sensory-motor coordination
 - (a) sensory-motor skills
 - (b) praxis/motor planning skills.

(17) Social/Developmental History

A social history documents typical and atypical developmental and/or medical events and includes a review of information gathered during the screening process and/or systematic problem-solving process including disciplinary removals, transiency and attendance/tardy rates. A social history must include an assessment of family composition, support systems, stressors, and environment as they correlate with the child's need or special services. The history also must include the family's or caregiver's perspective about the child and the need for special services. The history may be obtained by a licensed social worker, special educator, school psychologist, counselor, nurse, teacher or other appropriate persons.

(18) Speech-Language Screening

Speech-language screening quickly and reliably provides information in the areas of articulation, expressive and receptive language, voice and fluency for determining which students have communication within normal limits and which ones need to be referred for further evaluation.

(19) Speech-Language/Communication Evaluation

A speech-language evaluation includes the following aspects of speech-language: articulation, fluency, voice, and language (form, content, and function). A screening of areas not addressed in depth, including hearing, articulation, language, voice, and fluency should be completed during every evaluation. A variety of assessment tools and strategies to gather relevant functional, developmental, and academic information must be used. Assessment instruments may include interviews; curriculum-based dynamic assessment tools or criterion referenced tests; and norm referenced tests. Areas of assessment may also include augmentative communication and pragmatics, as appropriate. For a student to be considered for intervention, the student's speech, language, voice, or fluency must be determined to have an adverse effect on educational performance. A speech-language evaluation is conducted by a speech-language pathologist licensed by the State Department of Public Instruction and/or licensed by the State of North Carolina.

(20) Vocational Evaluation

Vocational evaluation is a process involving an interdisciplinary team approach in assessing an individual's vocational potential, training and work placement needs.

 - (2) (i) Children aged 18 through 21 to the extent that State law does not require that special education and related services under the IDEA be provided to students with disabilities who, in the last educational placement prior to their incarceration in an adult correctional facility--
 - (A) Were not actually identified as being a child with a disability; and
 - (B) Did not have an IEP.
 - (ii) The exception in paragraph (a)(2)(i) of this section does not apply to children with disabilities, aged 18 through 21, who--

NC 1501-2.1 FAPE--Methods and Payments

- (a) Each LEA may use whatever State, local, Federal, and private sources of support are available in the LEA to meet the requirements of this section. - (b) When a private residential placement has been determined to be the most appropriate placement for a child with a disability, in-state residential programs should be the first consideration. The LEA should exhaust all possible in-state residential placement options before placing a child out-of-state. All children placed in out-of-district school settings are entitled to the same rights and procedural safeguards as provided to those children whose IEPs are implemented in the LEA.

 - (i) Whether the student regresses or may regress during extended breaks from instruction and cannot relearn the lost skills within a reasonable time; or
 - (ii) Whether the benefits a student gains during the regular school year will be significantly jeopardized if he or she is not provided with an educational program during extended breaks from instruction; or
 - (iii) Whether the student is demonstrating emerging critical skill acquisition (“window of opportunity”) that will be lost without the provision of an educational program during extended breaks from instruction.

NC 1501-8.1 Placement of Children by Parents if FAPE is at Issue

- (a) General. This part does not require an LEA to pay for the cost of education, including special education and related services, of a child with a disability at a private school or facility if that agency made FAPE available to the child and the parents elected to place the child in a private school or facility. However, the public agency must include that child in the population whose needs are addressed consistent with the provisions for parentally-placed private school children with disabilities.
- (b) Disagreements about FAPE. Disagreements between the parents and an LEA regarding the availability of a program appropriate for the child, and the question of financial reimbursement, are subject to the due process procedures in NC 1504-1.5 through NC 1504-1.21.
- (c) Reimbursement for private school placement. If the parents of a child with a disability, who previously received special education and related services under the authority of an LEA, enroll the child in a private preschool, elementary school, or secondary school without the consent of or referral by the LEA, a court or a hearing officer may require the LEA to reimburse the parents for the cost of that enrollment if the court or hearing officer finds that the LEA had not made FAPE available to the child in a timely manner prior to that enrollment and that the private placement is appropriate. A parental placement may be found to be appropriate by a hearing officer or a court even if it does not meet the State standards that apply to education provided by the SEA and LEAs.
- (d) Limitation on reimbursement. The cost of reimbursement described in paragraph (b) of this section may be reduced or denied--
 - (1) If--
 - (i) At the most recent IEP meeting that the parents attended prior to removal of the child from the public school, the parents did not inform the IEP Team that they were rejecting the placement proposed by the LEA to provide FAPE to their child, including stating their concerns and their intent to enroll their child in a private school at public expense; or

-
- (ii) At least ten (10) business days (including any holidays that occur on a business day) prior to the removal of the child from the public school, the parents did not give written notice to the public agency of the information described in paragraph (d)(1)(i) of this section;
 - (2) If, prior to the parents' removal of the child from the public school, the LEA informed the parents, through the notice requirements described in NC 1504-1.4(a)(1), of its intent to evaluate the child (including a statement of the purpose of the evaluation that was appropriate and reasonable), but the parents did not make the child available for the evaluation; or
 - (3) Upon a judicial finding of unreasonableness with respect to actions taken by the parents.
 - (e) Exception. Notwithstanding the notice requirement in paragraph (d)(1) of this section, the cost of reimbursement--
 - (1) Must not be reduced or denied for failure to provide the notice if--
 - (i) The school prevented the parent from providing the notice;
 - (ii) The parents had not received notice of procedural safeguards required by NC 1504-1.5, including the notice requirement in paragraph (d)(1) of this section; or
 - (iii) Compliance with paragraph (d)(1) of this section would likely result in physical harm to the child; and
 - (2) May, in the discretion of the court or a hearing officer, not be reduced or denied for failure to provide this notice if--
 - (i) The parent is not literate or cannot write in English; or
 - (ii) Compliance with paragraph (d)(1) of this section would likely result in serious emotional harm to the child.

NC 1501-11 Methods of Ensuring Services

- (a) Establishing responsibility for services. The Governor and designees must ensure that an interagency agreement or other mechanism for interagency coordination is in effect between each noneducational public agency described in paragraph (b) of this section and the SEA, in order to ensure that all services described in paragraph (b)(1) of this section that are needed to ensure FAPE are provided, including the provision of these services during the pendency of any dispute under paragraph (a)(3) of this section. The agreement or mechanism must include the following:
 - (1) An identification of, or a method for defining, the financial responsibility of each agency for providing services described in paragraph (b)(1) of this section to ensure FAPE to children with disabilities. The financial responsibility of each noneducational public agency described in

-
- paragraph (b) of this section, including the State Medicaid agency and other public insurers of children with disabilities, must precede the financial responsibility of the LEA (or the State agency responsible for developing the child's IEP).
- (2) The conditions, terms, and procedures under which an LEA must be reimbursed by other agencies.
 - (3) Procedures for resolving interagency disputes (including procedures under which LEAs may initiate proceedings) under the agreement or other mechanism to secure reimbursement from other agencies or otherwise implement the provisions of the agreement or mechanism.
 - (4) Policies and procedures for agencies to determine and identify the interagency coordination responsibilities of each agency to promote the coordination and timely and appropriate delivery of services described in paragraph (b)(1) of this section.
- (b) Obligation of noneducational public agencies.
- (1) (i) If any public agency other than an educational agency is otherwise obligated under Federal or State law, or assigned responsibility under State policy or pursuant to paragraph (a) of this section, to provide or pay for any services that are also considered special education or related services (such as, but not limited to, services described in NC 1500-2.2 relating to assistive technology devices, NC 1500-2.3 relating to assistive technology services, NC 1500-2.31 relating to related services, NC 1500-2.39 relating to supplementary aids and services, and NC 1500-2.41 relating to transition services) that are necessary for ensuring FAPE to children with disabilities within the State, the public agency must fulfill that obligation or responsibility, either directly or through contract or other arrangement pursuant to paragraph (a) of this section or an agreement pursuant to paragraph (c) of this section.
 - (ii) A noneducational public agency described in paragraph (b)(1)(i) of this section may not disqualify an eligible service for Medicaid reimbursement because that service is provided in a school context.
 - (2) If a public agency other than an educational agency fails to provide or pay for the special education and related services described in paragraph (b)(1) of this section, the LEA (or State agency responsible for developing the child's IEP) must provide or pay for these services to the child in a timely manner. The LEA or State agency is authorized to claim reimbursement for the services from the noneducational public agency that failed to provide or pay for these services and that agency must reimburse the LEA or State Agency in accordance with the terms of the interagency agreement or other mechanism described in paragraph (a) of this section.

 - (ii) May not require parents to incur an out-of-pocket expense such as the payment of a deductible or co-pay amount incurred in filing a claim for services provided pursuant to this part, but pursuant to paragraph (g)(2) of this section, may pay the cost that the parent otherwise would be required to pay;
 - (iii) May not use a child's benefits under a public benefits or insurance program if that use would-
 - (A) Decrease available lifetime coverage or any other insured benefit;
 - (B) Result in the family paying for services that would otherwise be covered by the public benefits or insurance program and that are required for the child outside of the time the child is in school;
-

-

 - (D) Risk loss of eligibility for home and community-based waivers, based on aggregate health-related expenditures; and

 - (D) A statement that the withdrawal of consent or refusal to provide consent under 34 CFR part 99 and these policies to disclose personally identifiable information to the agency responsible for the administration of the State's public benefits or insurance program (e.g., Medicaid) does not relieve the public agency of its responsibility to ensure that all required services are provided at no cost to the parents.
 - (e) Children with disabilities who are covered by private insurance.
 - (1) With regard to services required to provide FAPE to an eligible child under these Policies, a public agency may access a parent's private insurance proceeds only if the parent provides informed consent consistent with NC 1500-2.6.
 - (2) Each time the public agency proposes to access the parent's private insurance proceeds, the agency must -
 - (i) Obtain parental consent in accordance with paragraph (e)(1) of this section; and
 - (ii) Inform the parents that their refusal to permit the public agency to access their private insurance does not relieve the public agency of its responsibility to ensure that all required services are provided at no cost to the parents.
 - (f) Use of Part B funds.
 - (1) If a public agency is unable to obtain parental consent to use the parent's private insurance, or public benefits or insurance when the parent would incur a cost for a specified service required under these Policies, to ensure FAPE the public agency may use its Part B funds to pay for the service.
 - (2) To avoid financial cost to parents who otherwise would consent to use private insurance, or public benefits or insurance if the parent would incur a cost, the public agency may use its Part B funds to pay the cost that the parents otherwise would have to pay to use the parent's insurance (e.g., the deductible or co-pay amounts).
 - (g) Proceeds from public or private insurance.
 - (1) Proceeds from public benefits or insurance or private insurance will not be treated as program income for reporting purposes (2 CFR 200.307).

-

maintenance of effort provisions in NC 1501-12.6 and NC 1502-4.

- (h) Construction. Nothing in these Policies should be construed to alter the requirements imposed on a State Medicaid agency, or any other agency administering a public benefits or insurance program by Federal statute, regulations or policy under title XIX, or title XXI of the Social Security Act, 42 U.S.C. 1396 through 1396v and 42 U.S.C. 1397aa through 1397jj, or any other public benefits or insurance program.

(Authority: 20 U.S.C. 1412(a)(15); 34 CFR 300.157; 115C-107.5)

NC 1501-12.4 Participation in Assessments

- (a) **General.** The State must ensure that all children with disabilities are included in all general State and district-wide assessment programs, including assessments described under section 1111 of the ESEA, 20 U.S.C. 6311, with appropriate accommodations and alternate assessments, if necessary, as indicated in their respective IEPs.
- (b) **Accommodation guidelines.**
- (1) The State (or, in the case of a district-wide assessment, an LEA) must develop guidelines for the provision of appropriate accommodations.
 - (2) The State's (or, in the case of a district-wide assessment, the LEA's) guidelines must--
 - (i) Identify only those accommodations for each assessment that do not invalidate the score; and
 - (ii) Instruct IEP Teams to select, for each assessment, only those accommodations that do not invalidate the score.
- (c) **Alternate assessments** aligned with alternate academic achievement standards for students with the most significant cognitive disabilities.
- (1) If a State has adopted alternate academic achievement standards for children with disabilities who are students with the most significant cognitive disabilities as permitted in section 1111(b)(1)(E) of the ESEA, the State (or in the case of a district-wide assessment, an LEA) must develop and implement alternate assessments and guidelines for the participation in alternate assessments of those children with disabilities who cannot participate in regular assessments, even with accommodations, as indicated in their respective IEPs, as provided in paragraph (a) of this section.
 - (2) For assessing the academic progress of students with disabilities who are students with the most significant cognitive disabilities under Title I of the ESEA, the alternate assessments and guidelines in paragraph (c)(1) of this section must --
 - (i) Be aligned with the challenging State academic content standards under section 1111(b)(1) of the ESEA and alternate academic achievement standards under section 1111(b)(1)(E) of the ESEA; and
 - (ii) Measure the achievement of children with disabilities who are students with the most significant cognitive disabilities against those standards.
 - (3) Consistent with section 1111(b)(1)(E)(ii) of the ESEA and 34 CFR 200.6(c)(6), a State may not adopt modified academic achievement standards that do not meet the requirements in section 1111(b)(1)(E) of the ESEA for any children with disabilities under section 602(3) of the IDEA.
- (d) **Explanation to IEP Teams.** A State (or in the case of a district-wide assessment, an LEA) must --
- (1) Provide to IEP team a clear explanation of the difference between assessments based on grade-level academic achievement standards and those based on alternate academic achievement standards, including any effects of State and local policies on a student's education resulting from taking an alternate assessment aligned with alternate academic achievement standards, such as how participation in such assessments may delay or otherwise affect the student from completing the requirements for a regular high school diploma; and
 - (2) Not preclude a student with the most significant cognitive disabilities who takes an alternate assessment aligned with alternate achievement standards from attempting to complete the requirements for a regular high school diploma.
- (e) **Inform parents.** A State (or in the case of a district-wide assessment, an LEA), must ensure that parents of students selected to be assessed using an alternate assessment aligned with alternate academic achievement standards under the State's guidelines in paragraph (c)(1) of this section are informed, consistent with 34 CFR 200.2(e), that their child's achievement will be measured based on alternate academic standards, and of how participation in such assessments may delay or otherwise
-

affect the student from completing the requirements for a regular high school diploma.

- (f) Reports. An SEA (or, in the case of a district-wide assessment, an LEA) must make available to the public, and report to the public with the same frequency and in the same detail as it reports on the assessment of nondisabled children, the following:
- (1) The number of children with disabilities participating in regular assessments, and the number of those children who were provided accommodations (that did not result in an invalid score) in order to participate in those assessments.
 - (2) The number of children with disabilities, if any, participating in alternate assessments based on grade-level academic achievement standards in school years prior to 2017-2018.
 - (3) The number of children with disabilities, if any, participating in alternate assessments aligned with modified academic achievement standards in school years prior to 2016-2017.
 - (4) The number of children with disabilities who are students with the most significant cognitive disabilities participating in alternate assessments aligned with alternate academic achievement standards.
 - (5) Compared with the achievement of all children, including children with disabilities, the performance results of children with disabilities on regular assessments, alternate assessments based on grade-level academic achievement standards (prior to 2017-2018), alternate assessments based on modified academic achievement (prior to 2016-2017), and alternate assessments aligned with alternate academic achievement standards if--
 - (i) The number of children participating in those assessments is sufficient to yield statistically reliable information; and
 - (ii) Reporting that information will not reveal personally identifiable information about an individual student on those assessments.
- (g) Universal design. The SEA (or, in the case of a district-wide assessment, an LEA) must, to the extent possible, use universal design principles in developing and administering any assessments under this section.

(Authority: 20 U.S.C. 1412(a)(16); 34 CFR 300.160)

NC 1501-12.5 Supplementation of State, Local, and Other Federal Funds

- (a) Expenditures. Funds paid to the State under this part must be expended in accordance with all the provisions of this part.
- (b) Prohibition against commingling.
- (1) Funds paid to the State under this part must not be commingled with State funds.
 - (2) The requirement in paragraph (b)(1) of this section is satisfied by the use of a separate accounting system that includes an audit trail of the expenditure of funds paid to the State under this part. Separate bank accounts are not required. (See 34 CFR 76.702 (Fiscal control and fund accounting procedures)).
- (c) State-level nonsupplanting.
- (1) Except as provided in NC 1502-4, funds paid to the State under Part B of the IDEA must be used to supplement the level of Federal, State, and local funds (including funds that are not under the direct control of the SEA or LEAs) expended for special education and related services provided to children with disabilities under Part B of the IDEA, and in no case to supplant those Federal, State, and local funds.
 - (2) If the State provides clear and convincing evidence that all children with disabilities have available to them FAPE, the Secretary may waive, in whole or in part, the requirements of paragraph (c)(1) of this section if the Secretary concurs with the evidence provided by the State under NC 1501-12.7.

(Authority: 20 U.S.C. 1412(a)(17); 34 CFR 300.162; 115C-111.6)

NC 1501-12.6 Maintenance of State Financial Support

-
- (a) General. The State must not reduce the amount of State financial support for special education and related services for children with disabilities, or otherwise made available because of the excess costs of educating those children, below the amount of that support for the preceding fiscal year.
 - (b) Reduction of funds for failure to maintain support. The Secretary reduces the allocation of funds under section 611 of the IDEA for any fiscal year following the fiscal year in which the State fails to comply with the requirement of paragraph (a) of this section by the same amount by which the State fails to meet the requirement.
 - (c) Waivers for exceptional or uncontrollable circumstances. The Secretary may waive the requirement of paragraph (a) of this section for the State, for one fiscal year at a time, if the Secretary determines that -
 - (1) Granting a waiver would be equitable due to exceptional or uncontrollable circumstances such as a natural disaster or a precipitous and unforeseen decline in the financial resources of the State; or
 - (2) The State meets the standard in NC 1501-12.7 for a waiver of the requirement to supplement, and not to supplant, funds received under Part B of the IDEA.
 - (d) Subsequent years. If, for any fiscal year, the State fails to meet the requirement of paragraph (a) of this section, including any year for which the State is granted a waiver under paragraph (c) of this section, the financial support required of the State in future years under paragraph (a) of this section shall be the amount that would have been required in the absence of that failure and not the reduced level of the State's support.

(Authority: 20 U.S.C. 1412(a)(18); 34 CFR 300.163)

NC 1501-12.7 Waiver of Requirements Regarding Supplementing and Not Supplanting with Part B Funds

- (a) Except as provided under NC 1502-3 through NC 1502-6, funds paid to the State under Part B of the IDEA must be used to supplement and increase the level of Federal, State, and local funds (including funds that are not under the direct control of SEAs or LEAs) expended for special education and related services provided to children with disabilities under Part B of the IDEA and in no case to supplant those Federal, State, and local funds. The State may use funds it retains under NC 1506-1.3(a) and (b) without regard to the prohibition on supplanting other funds.
- (b) If the State provides clear and convincing evidence that all eligible children with disabilities throughout the State have FAPE available to them, the Secretary may waive for a period of one year in whole or in part the requirement under NC 1501-12.5 (regarding State-level nonsupplanting) if the Secretary concurs with the evidence provided by the State.
- (c) If the State wishes to request a waiver under this section, it must submit to the Secretary a written request that includes--
 - (1) An assurance that FAPE is currently available and will remain available throughout the period that a waiver would be in effect, to all eligible children with disabilities throughout the State, regardless of the public agency that is responsible for providing FAPE to them. The assurance must be signed by an official who has the authority to provide that assurance as it applies to all eligible children with disabilities in the State;
 - (2) All evidence that the State wishes the Secretary to consider in determining whether all eligible children with disabilities have FAPE available to them, setting forth in detail--
 - (i) The basis on which the State has concluded that FAPE is available to all eligible children in the State; and
 - (ii) The procedures that the State will implement to ensure that FAPE remains available to all eligible children in the State, which must include--
 - (A) The State's procedures under NC 1501-2.9 for ensuring that all eligible children are identified, located and evaluated;
 - (B) The State's procedures for monitoring public agencies to ensure that they comply with all requirements of this part;
 - (C) The State's complaint procedures under NC 1501-10.1 through NC 1501-10.3; and
 - (D) The State's hearing procedures under NC 1504-1.12 through NC 1504-1.17 and NC

1504-2.1 through 1504-2.7;

- (3) A summary of all State and Federal monitoring reports, and State complaint decisions and hearing decisions, issued within three years prior to the date of the State’s request for a waiver under this section, that includes any finding that FAPE has not been available to one or more eligible children, and evidence that FAPE is now available to all children addressed in those reports or decisions; and
- (4) Evidence that the State, in determining that FAPE is currently available to all eligible children with disabilities in the State, has consulted with the State advisory panel under NC 1501-13.1.
- (d) If the Secretary determines that the request and supporting evidence submitted by the State makes prima facie showing that FAPE is, and will remain, available to all eligible children with disabilities in the State, the Secretary, after notice to the public throughout the State, conducts a public hearing at which all interested persons and organizations may present evidence regarding the following issues:
 - (1) Whether FAPE is currently available to all eligible children with disabilities in the State.
 - (2) Whether the State will be able to ensure that FAPE remains available to all eligible children with disabilities in the State if the Secretary provides the requested waiver.
- (e) Following the hearing, the Secretary, based on all submitted evidence, will provide a waiver, in whole or in part, for a period of one year if the Secretary finds that the State has provided clear and convincing evidence that FAPE is currently available to all eligible children with disabilities in the State, and the State will be able to ensure that FAPE remains available to all eligible children with disabilities in the State if the Secretary provides the requested waiver.
- (f) A State may receive a waiver of the requirement of section 612(a)(18)(A) of the IDEA and NC 1501-12.7 if it satisfies the requirements of paragraphs (b) through (e) of this section.
- (g) The Secretary may grant subsequent waivers for a period of one year each, if the Secretary determines that the State has provided clear and convincing evidence that all eligible children with disabilities throughout the State have and will continue to have throughout the one-year period of the waiver, FAPE available to them.

- (a) Prior to the adoption of any policies and procedures needed to comply with Part B of the IDEA (including any amendments to those policies and procedures), the State ensures that there are public hearings, adequate notice of the hearings, and an opportunity for comment available to the general public, including individuals with disabilities and parents of children with disabilities.
- (b) Before submitting the State plan under this part, the State must comply with the public participation requirements in paragraph (a) of this section and those in 20 U.S.C. 1232d(b)(7).

State and LEA personnel are prohibited from requiring parents to obtain a prescription for substances identified under schedules I, II, III, IV, or V in section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)) for a child as a condition of attending school, receiving an evaluation under NC 1503-1 through NC 1503-3.5, or receiving services under these Policies.
- (b) Rule of construction. Nothing in paragraph (a) of this section shall be construed to create a Federal prohibition against teachers and other school personnel consulting or sharing classroom-based observations with parents or guardians regarding a student's academic and functional performance, or behavior in the classroom or school, or regarding the need for evaluation for special education or related services under NC 1501-2.9 (related to child find).

NC 1501-14.6 Exception for Prior State Plans

- (a) Modifications made by a State.
 - (1) Subject to paragraph (a)(2) of this section, policies and procedures submitted by a State in accordance with this subpart remain in effect until the State submits to the Secretary the modifications that the State determines necessary.
 - (2) The provisions of this subpart apply to a modification to an application to the same extent and in the same manner that they apply to the original plan.
- (b) Modifications required by the Secretary. The Secretary may require the State to modify its policies and procedures, but only to the extent necessary to ensure the State's compliance with this part, if--
 - (1) After December 3, 2004, the provisions of the Act or the regulations in this part are amended;
 - (2) There is a new interpretation of the IDEA by a Federal court or a State's highest court; or
 - (3) There is an official finding of noncompliance with Federal law or regulations.

(Authority: 20 U.S.C. 1412(c)(2) and (3); 34 CFR 300.176)

NC 1501-15 State Administration

- (a) Rulemaking. The State must--
 - (1) Ensure that any State rules, regulations, and policies relating to this part conform to the purposes of this part;
 - (2) Identify in writing to LEAs located in the State and the Secretary any such rule, regulation, or policy as a State-imposed requirement that is not required by Part B of the Act and Federal regulations; and
 - (3) Minimize the number of rules, regulations, and policies to which the LEAs and schools located in the State are subject under Part B of the IDEA.
- (b) Support and facilitation. State rules, regulations, and policies under Part B of the IDEA must support and facilitate LEA and school-level system improvement designed to enable children with disabilities to meet the challenging State student academic achievement standards.

SUBPART C - LOCAL EDUCATIONAL AGENCY ELIGIBILITY

NC 1502-1 Condition of Assistance

An LEA is eligible for assistance under Part B of the IDEA for a fiscal year if the agency submits a plan that provides assurances to the SEA that the LEA meets each of the conditions in NC 1502-2 through NC 1502-14.

(Authority: 20 U.S.C. 1413(a); 34 CFR 300.200)

NC 1502-2 Consistency with State Policies

The LEA, in providing for the education of children with disabilities within its jurisdiction, must have in effect policies, procedures, and programs that are consistent with the State policies and procedures established under NC 1501-1.1 through NC 1501-12.6 and NC 1501-12.8 through NC 1501-14.5.

(Authority: 20 U.S.C. 1413(a)(1); 34 CFR 300.201)

NC 1502-3 Use of Amounts

- (a) General. Amounts provided to the LEA under Part B of the IDEA--
 - (1) Must be expended in accordance with the applicable provisions of this part;
 - (2) Must be used only to pay the excess costs of providing special education and related services to children with disabilities, consistent with paragraph (b) of this section; and
 - (3) Must be used to supplement State, local, and other Federal funds and not to supplant those funds.
- (b) Excess cost requirement.
 - (1) General.
 - (i) The excess cost requirement prevents an LEA from using funds provided under Part B of the IDEA to pay for all of the costs directly attributable to the education of a child with a disability.
 - (ii) The excess cost requirement does not prevent an LEA from using Part B funds to pay for all of the costs directly attributable to the education of a child with a disability in any of the ages 3, 4, 5, 18, 19, 20, or 21, if no local or State funds are available for nondisabled children of these ages. However, the LEA must comply with the nonsupplanting and other requirements of this part in providing the education and services for these children.
 - (2) (i) An LEA meets the excess cost requirement if it has spent at least a minimum average amount for the education of its children with disabilities before funds under Part B of the IDEA are used.

-
- (ii) The amount described in paragraph (b)(2)(i) of this section is determined in accordance with the definition of excess costs in NC 1500-2.16. That amount may not include capital outlay or debt service.
 - (3) If two or more LEAs jointly establish eligibility in accordance with NC 1502-18 the minimum average amount is the average of the combined minimum average amounts determined in accordance with the definition of excess costs in those agencies for elementary or secondary school students, as the case may be.

(Authority: 20 U.S.C. 1413(a)(2)(A); 34 CFR 300.202)

NC 1502-4 Maintenance of Effort

- (a) Eligibility standard.
 - (1) For purposes of establishing the LEA’s eligibility for an award for a fiscal year, the SEA must determine that the LEA budgets, for the education of children with disabilities, at least the same amount, from at least one of the following sources, as the LEA spent to that purpose from the same source for the most recent fiscal year for which information is available:
 - (i) Local funds only;
 - (ii) The combination of State and local funds;
 - (iii) Local funds only on a per capita basis; or
 - (iv) The combination of State and local funds on a per capita basis.
 - (2) When determining the amount of funds that the LEA must budget to meet the requirement in paragraph (a)(1) of this section, the LEA may take into consideration, to the extent the information is available, the exceptions and adjustment provided in NC 1502-5 and NC 1502-6 that the LEA:
 - (i) Took in the intervening year or years between the most recent fiscal year for which information is available and the fiscal year for which the LEA is budgeting; and
 - (ii) Reasonably expects to take in the fiscal year for which the LEA is budgeting.
 - (3) Expenditures made from funds provided by the Federal government for which the SEA is required to account to the Federal government or for which the LEA is required to account to the Federal government directly or through the SEA may not be considered in determining whether an LEA meets the standard in paragraph (a)(1) of this section.
 - (b) Compliance standard.
 - (1) Except as provided in NC 1502-5 and NC 1502-6, funds provided to an LEA under Part B of the Act must not be used to reduce the level of expenditures for the education of children with disabilities made by the LEA from local funds below the level of those expenditures for the preceding fiscal year.
 - (2) An LEA meets this standard if it does not reduce the level of expenditures for the education of children with disabilities made by the LEA from at least one of the following sources below the level of those expenditures from the same source for the preceding fiscal year, except as provided in NC 1502-5 and NC 1502-6:
 - (i) Local funds only;
 - (ii) The combination of State and local funds;
 - (iii) Local funds only on a per capita basis; or
 - (iv) The combination of State and local funds on a per capita basis.
 - (3) Expenditures made from funds provided by the Federal government for which the SEA is required to account to the Federal government or for which the LEA is required to account to the Federal government directly or through the SEA may not be considered in determining whether an LEA meets the standard in paragraphs (b)(1) and (2) of this section.
 - (c) Subsequent years.
 - (1) If, in the fiscal year beginning on July 1, 2013, or July 1, 2014, an LEA fails to meet the requirements of NC 1502-4 in effect at that time, the level of expenditures required of the LEA for the fiscal year subsequent to the year of the failure is the amount that would have been required in the absence of that failure, not the LEA’s reduced level of expenditures.
-

- (2) If, in any fiscal year beginning on or after July 1, 2015, an LEA fails to meet the requirement of paragraph (b)(2)(i) or (iii) of this section and the LEA is relying on local funds only, or local funds only on a per capita basis, to meet the requirements of paragraph (a) or (b) of this section, the level of expenditures required of the LEA for the fiscal year subsequent to the year of the failure is the amount that would have been required under paragraph (b)(2)(i) or (iii) in the absence of that failure, not the LEA's reduced level of expenditures.
- (3) If, any fiscal year beginning on or after July 1, 2015, an LEA fails to meet the requirement of paragraph (b)(2)(ii) or (iv) of this section and the LEA is relying on the combination of State and local funds, or the combination of State and local funds, or the combination of State and local funds on a per capita basis, to meet the requirements of paragraph (a) or (b) of this section, the level of expenditures required by the LEA for fiscal year subsequent to the year of the failure is the amount that would have been required under paragraph (b)(2)(ii) or (iv) in the absence of that failure, not the LEA's reeducated level of expenditures.
- (d) Consequence of failure to maintain effort. If an LEA fails to maintain its level of expenditures for the education of children with disabilities in accordance with paragraph (b) of this section, the SEA is liable under section 452 of the General Education Provisions Act (20 U.S.C. 1234a) to return to the Department, using non-Federal funds, an amount equal to the amount by which the LEA failed to maintain its level of expenditures in accordance with paragraph (b) of this section in that fiscal year, or the amount of the LEA's Part B sub grant in that fiscal year, whichever is lower. NC 1502-5 Exception to Maintenance of Effort

Notwithstanding the restriction in NC 1502-4(b) an LEA may reduce the level of expenditures by the LEA under Part B below the level of those expenditures for the preceding fiscal year if the reduction is attributable to any of the following:

- (a) The voluntary departure, by retirement or otherwise, or departure for just cause, of special education or related services personnel.
- (b) A decrease in the enrollment of children with disabilities.
- (c) The termination of the obligation of the agency to provide a program of special education to a particular child with a disability that is an exceptionally costly program, as determined by the SEA, because the child--
- (1) Has left the jurisdiction of the agency;
 - (2) Has reached the age at which the obligation of the agency to provide FAPE to the child has terminated; or
 - (3) No longer needs the program of special education.
- (d) The termination of costly expenditures for long-term purchases, such as the acquisition of equipment or the construction of school facilities.
- (e) The assumption of cost by the high cost fund operated by the SEA under NC 1506-1.3(c).

NC 1502-6 Adjustment to Local Fiscal Efforts in Certain Fiscal Years

- (a) Amounts in excess. Notwithstanding NC 1502-3(a)(2) and (b) and NC 1502-4(b) and except as provided in paragraph (d) of this section and NC 1502-22(e)(2), for any fiscal year for which the allocation received by an LEA under NC 1506-1.4 exceeds the amount the LEA received for the previous fiscal year, the LEA may reduce the level of expenditures otherwise required by NC 1502-4(b) by not more than 50 percent of the amount of that excess.
- (b) Use of amounts to carry out activities under ESEA. If an LEA exercises the authority under paragraph (a) of this section, the LEA must use an amount of local funds equal to the reduction in

expenditures under paragraph (a) of this section to carry out activities that could be supported with funds under the ESEA regardless of whether the LEA is using funds under the ESEA for those activities.

- (c) State prohibition. Notwithstanding paragraph (a) of this section, if the SEA determines that an LEA is unable to establish and maintain programs of FAPE that meet the requirements of section 613(a) of the Act and this part or the SEA has taken action against the LEA under section 616 of the Act and subpart F of these regulations, the SEA must prohibit the LEA from reducing the level of expenditures under paragraph (a) of this section for that fiscal year.
- (d) Special rule. The amount of funds expended by an LEA for early intervening services NC 1502-20 shall count toward the maximum amount of expenditures that the LEA may reduce under paragraph (a) of this section.

(Authority: 20 U.S.C. 1413(a)(2)(C); 34 CFR 300.205)

NC 1502-7 Schoolwide Programs under Title I of the ESEA

- (a) General. Notwithstanding the provisions of NC 1502-3 and NC 1502-4, or any other provisions of Part B of the IDEA, an LEA may use funds received under Part B of the IDEA for any fiscal year to carry out a school wide program under section 1114 of the ESEA, except that the amount used in any school wide program may not exceed--
 - (1) (i) The amount received by the LEA under Part B of the IDEA for that fiscal year; divided by
 - (ii) The number of children with disabilities in the LEA; and multiplied by
 - (2) The number of children with disabilities participating in the school wide program.
- (b) Funding conditions. The funds described in paragraph (a) of this section are subject to the following conditions:
 - (1) The funds must be considered as Federal Part B funds for the purposes of the calculations required by NC 1502-3(a)(2) and (a)(3).
 - (2) The funds may be used without regard to the requirements of NC 1502-3(a)(1).
- (c) Meeting other Part B requirements. Except as provided in paragraph (b) of this section, all other requirements of Part B of the IDEA must be met by an LEA using Part B funds in accordance with paragraph (a) of this section, including ensuring that children with disabilities in school wide program schools--
 - (1) Receive services in accordance with a properly developed IEP; and
 - (2) Are afforded all of the rights and services guaranteed to children with disabilities under the IDEA.

(Authority: 20 U.S.C. 1413(a)(3); 34 CFR 300.207)

NC 1502-9 Permissive Use of Funds

- (a) Uses. Notwithstanding NC 1502-3, NC 1502-4(b) and NC 1501-12.5(b), funds provided to an LEA under Part B of the IDEA may be used for the following activities:
 - (1) Services and aids that also benefit nondisabled children. For the costs of special education and related services, and supplementary aids and services, provided in a regular class or other education-related setting to a child with a disability in accordance with the IEP of the child, even if one or more nondisabled children benefit from these services.

-
- (2) Early intervening services. To develop and implement coordinated, early intervening educational services in accordance with NC 1502-20.
 - (3) High cost education and related services. To establish and implement cost or risk sharing funds, for the LEA itself, or for LEAs working together, to pay for high cost special education and related services.
 - (b) Administrative case management. An LEA may use funds received under Part B of the IDEA to purchase appropriate technology for recordkeeping, data collection, and related case management activities of teachers and related services personnel described in the IEP of children with disabilities, that is needed for the implementation of those case management activities.

- (b) Rights of LEA.
 - (1) Nothing in this section shall be construed to require an LEA to coordinate with the NIMAC.
 - (2) If an LEA chooses not to coordinate with the NIMAC, the LEA must provide an assurance to the SEA that the LEA will provide instructional materials to blind persons or other persons with print disabilities in a timely manner.
 - (3) Nothing in this section relieves an LEA of its responsibility to ensure that children with disabilities who need instructional materials in accessible formats but are not included under the definition of blind or other persons with print disabilities in NC 1501-14.3(e)(1)(i) or who need materials that cannot be produced from NIMAS files, receive those instructional materials in a timely manner.

(Authority: 20 U.S.C. 1413(a)(9); 34 CFR 300.213)

NC 1502-15 Exceptions for Prior Local Plans

- (1) General. If an LEA has on file with the SEA policies and procedures that demonstrate that the LEA meets any requirement of NC 1502-1, including any policies and procedures filed under Part B of the IDEA as in effect before December 3, 2004, the SEA must consider the LEA to have met that requirement for purposes of receiving assistance under Part B of the IDEA.
- (2) Modification made by an LEA. Subject to paragraph (c) of this section, policies and procedures submitted by an LEA in accordance with this subpart remain in effect until the LEA submits to the SEA the modifications that the LEA determines are necessary.
- (3) Modifications required by the SEA. The SEA may require an LEA to modify its policies and procedures, but only to the extent necessary to ensure the LEA’s compliance with Part B of the IDEA or State law, if--

- (a) General. If the SEA, after reasonable notice and an opportunity for a hearing, finds that an LEA that has been determined to be eligible under this subpart is failing to comply with any requirement described in NC 1502-2 through NC 1502-14, the SEA must reduce or must not provide any further payments to the LEA until the SEA is satisfied that the LEA is complying with that requirement.
- (b) Notice requirement. Any LEA in receipt of a notice described in paragraph (a) must, by means of public notice, take the measures necessary to bring the pendency of an action pursuant to this section to the attention of the public within the jurisdiction of the agency.

 - (b) Charter school exception. An SEA may not require a charter school that is an LEA to jointly establish its eligibility under paragraph (a) of this section.
 - (c) Amount of payments. - (a) General. An LEA may not use more than 15 percent of the amount received under Part B of the IDEA for any fiscal year, less any amount reduced by the agency pursuant to NC 1502-6, if any, in combination with other amounts (which may include amounts other than education funds), to develop and implement coordinated, early intervening services, which may include interagency financing structures, for students in kindergarten through grade 12 (with a particular emphasis on students in kindergarten through grade three) who have not been identified as needing special education or related services, but who need additional academic and behavioral support to succeed in a general education environment.
- (b) Activities. In implementing coordinated, early intervening services under this section, an LEA may carry out activities that include—
 - (1) Professional development (which may be provided by entities other than LEAs) for teachers and other school staff to enable such personnel to deliver scientifically based academic and behavioral interventions, including scientifically based literacy instruction, and, where appropriate, instruction on the use of adaptive and instructional software; and
 - (2) Providing educational and behavioral evaluations, services, and supports, including scientifically based literacy instruction.
- (c) Construction. Nothing in this section shall be construed to either limit or create a right to FAPE under Part B of the IDEA or to delay appropriate evaluation of a child suspected of having a disability.
- (d) Reporting. Each LEA that develops and maintains coordinated, early intervening services under this section must annually report to the SEA on—
 - (1) The number of children served under this section who received early intervening services; and
 - (2) The number of children served under this section who subsequently receive special education and related services under Part B of the IDEA during the preceding two-year period.
- (e) Coordination with ESEA. Funds made available to carry out this section may be used to carry out coordinated, early intervening services aligned with activities funded by, and carried out under the ESEA if those funds are used to supplement, and not supplant, funds made available under the ESEA for the activities and services assisted under this section.

NC 1502-22 SEA Flexibility

- (a) Adjustment to State fiscal effort in certain fiscal years. For any fiscal year for which the allotment received by the State under NC 1506-1.2 exceeds the amount the State received for the previous fiscal year and if the State in school year 2003-2004 or any subsequent school year pays or reimburses all LEAs within the State from State revenue 100 percent of the non-Federal share of the costs of special education and related services, the SEA, notwithstanding NC 1501-12.5 through NC 1501-12.6 (related to State-level nonsupplanting and maintenance of effort), and where SEA is the provider of FAPE or direct services under 20 U.S.C. 1412(b) may reduce the level of expenditures from State sources for the education of children with disabilities by not more than 50 percent of the amount of such excess.
- (b) Prohibition. Notwithstanding paragraph (a) of this section, if the Secretary determines that the SEA is unable to establish, maintain, or oversee programs of FAPE that meet the requirements of this part, or that the State needs assistance, intervention, or substantial intervention under NC 1505-1.4, the Secretary prohibits the SEA from exercising the authority in paragraph (a) of this section.
- (c) Education activities. If the SEA exercises the authority under paragraph (a) of this section, the agency must use funds from State sources, in an amount equal to the amount of the reduction under paragraph (a) of this section, to support activities authorized under the ESEA, or to support need-based student or teacher higher education programs.
- (d) Report. For each fiscal year for which the SEA exercises the authority under paragraph (a) of this section, the SEA must report to the Secretary--
 - (1) The amount of expenditures reduced pursuant to that paragraph; and
 - (2) The activities that were funded pursuant to paragraph (c) of this section.
- (e) Limitation.
 - (1) Notwithstanding paragraph (a) of this section, the SEA may not reduce the level of expenditures described in paragraph (a) of this section if any LEA in the State would, as a result of such reduction, receive less than 100 percent of the amount necessary to ensure that all children with disabilities served by the LEA receive FAPE from the combination of Federal funds received under Part B of the IDEA and State funds received from the SEA.
 - (2) If the SEA exercises the authority under paragraph (a) of this section, LEAs in the State may not reduce local effort under NC 1502-6 by more than the reduction in the State funds they receive.

SUBPART D - EVALUATIONS, ELIGIBILITY DETERMINATIONS, INDIVIDUALIZED EDUCATION PROGRAMS, AND EDUCATIONAL PLACEMENTS

NC 1503-1 Parental Consent

NC 1503-1.1 Parental Consent

- (a) Parental consent for initial evaluation.
-

-
- (1) (i) The LEA proposing to conduct an initial evaluation to determine if a child qualifies as a child with a disability under NC 1500-2.4 must, after providing notice consistent with NC 1504-1.4 and NC 1504-1.5, obtain informed consent, consistent with NC 1500-2.6, from the parent of the child before conducting the evaluation.
 - (ii) Parental consent for initial evaluation must not be construed as consent for initial provision of special education and related services.
 - (iii) The LEA must make reasonable efforts to obtain the informed consent from the parent for an initial evaluation to determine whether the child is a child with a disability.
 - (2) For initial evaluations only, if the child is a ward of the State and is not residing with the child's parent, the LEA is not required to obtain informed consent from the parent for an initial evaluation to determine whether the child is a child with a disability if –
 - (i) Despite reasonable efforts to do so, the LEA cannot discover the whereabouts of the parent of the child; or
 - (ii) The rights of the parent to make educational decisions have been removed by a judge in accordance with State law and consent for an initial evaluation has been given by an individual appointed by the judge to represent the child.
 - (3) (i) If the parent of a child enrolled in public school or seeking to be enrolled in public school does not provide consent for initial evaluation under paragraph (a)(1) of this section, or the parent fails to respond to a request to provide consent, the LEA may, but is not required to, pursue the initial evaluation of the child by utilizing the procedural safeguards, (including the mediation procedures NC 1504-1.7 or due process procedures under NC 1504-1.8 through NC 1504-1.17), if appropriate.
 - (ii) The LEA does not violate its obligation under NC 1501-2.9 and NC 1503-2.1 through NC 1503-3.5 if it declines to pursue the evaluation.
- (b) Parental consent for services.
- (1) An LEA that is responsible for making FAPE available to a child with a disability must obtain informed consent from the parent of the child before the initial provision of special education and related services to the child.
 - (2) The LEA must make reasonable efforts to obtain informed consent from the parent for the initial provision of special education and related services to the child.
 - (3) If the parent of a child fails to respond to a request for, or refuses to consent to, the initial provision of special education and related services, the public agency—
 - (i) May not use the procedures in NC 1504 (Procedural Safeguards) of this document (including the mediation procedures under NC 1504-1.7 or the due process procedures under NC 1504-1.8 through NC 1504-1.17) in order to obtain agreement or a ruling that the services may be provided to the child;
 - (ii) Will not be considered to be in violation of the requirement to make FAPE available to the child because of the failure to provide the child with the special education and related services for which the parent refuses to or fails to provide consent; and
 - (iii) Is not required to convene an IEP Team meeting or develop an IEP for the child under NC 1503-4.1 and NC 1503-5.1.
 - (4) If, at any time subsequent to the initial provision of special education and related services, the parent of a child revokes consent in writing for the continued provision of special education and related services, the public agency--
 - (i) May not continue to provide special education and related services to the child, but must provide prior written notice in accordance with NC 1504-1.4 before ceasing the provision of special education and related services;
 - (ii) May not use the procedures in NC 1504 (Procedural Safeguards) of this document (including the mediation procedures under NC 1504-1.7 or the due process procedures under NC 1504-1.8 through NC 1504-1.17) in order to obtain agreement or a ruling that the services may be provided to the child;
 - (iii) Will not be considered to be in violation of the requirement to make FAPE available to the child because of the failure to provide the child with further special education and related services; and
-

-
- (iv) Is not required to convene an IEP Team meeting or develop an IEP under NC 1503- 4.1 and NC 1503-5.1 for the child for further provision of special education and related services.
 - (c) Parental consent for reevaluations.
 - (1) Subject to paragraph (c)(2) of this section, each LEA –
 - (i) Must obtain informed parental consent, in accordance with NC 1503-1.1(a)(1), prior to conducting any reevaluation of a child with a disability.
 - (ii) If the parent refuses to consent to reevaluation, the LEA may, but is not required to, pursue the reevaluation by using the consent override procedures described in paragraph (a)(3) of this section.
 - (iii) The LEA does not violate its obligation under NC 1501-2.9 and NC 1503-2.1 through NC 1503-3.5 if it declines to pursue the evaluation or reevaluation.
 - (2) The informed parental consent described in paragraph (c)(1) of this section need not be obtained if the LEA can demonstrate that—
 - (i) It made reasonable measures to obtain such consent; and
 - (ii) The child’s parent has failed to respond.
 - (d) Other consent requirements.
 - (1) Parental consent is not required before-
 - (i) Reviewing existing data as part of an evaluation or a reevaluation; or
 - (ii) Administering a test or other evaluation that is administered to all children unless, before administration of that test or evaluation, consent is required of parents of all children.
 - (2) An LEA may not use a parent's refusal to consent to one service or activity under paragraph (a) of this section to deny the parent or child any other service, benefit, or activity of the public agency, except as required by this part.
 - (3) (i) If a parent of a child who is home schooled or placed in a private school by the parent at their own expense does not provide consent for initial evaluation or the reevaluation, or the parent fails to respond to a request to provide consent, the public agency may not use the consent override procedures (described in paragraphs (a)(3) and (c)(1) of this section); and
 - (ii) The public agency is not required to consider the child as eligible for services under NC 1501-6.3 through NC 1501-6.15.
 - (4) To meet the reasonable efforts requirement in paragraphs (a)(1)(iii), (a)(2)(i), (b)(2), and (c)(2)(i) of this section, the public agency must document its attempts to obtain parental consent using the procedures in NC 1503-4.3(d).

NC 1503-2 Referrals, Evaluations and Reevaluations

NC 1503-2.1 Referral

When a public agency, as defined at NC 1500-2.24 or parent suspects that a child may be a child with a disability, he/she shall provide in writing the reason for referral, addressing the specific presenting concerns and the child’s current strengths and needs. This referral shall be given to the principal of the school, the child’s teacher or other school professional, or the Superintendent or other appointed official of the LEA. For preschool children with disabilities, the referral may also be given to the person designated as the person in charge of services for preschool children with disabilities.

NC 1503-2.2 Initial Evaluations

- (a) General. Each LEA must conduct a full and individual initial evaluation (including progress monitoring data) in accordance with NC 1503-2.5 through NC 1503-2.7 before the initial provision of special education and related services to a child with a disability under these Policies.
 - (b) Request for initial evaluation or determination of eligibility. Consistent with the consent requirements in NC 1503-1.1, either a parent of a child, or an LEA may initiate a request for an initial evaluation to determine if the child is a child with a disability. Upon an oral request for an initial
-

evaluation from a parent, the LEA shall provide assistance, as needed, in completing a written referral.

(c) Timeline for initial referral.

(1) Evaluations must be conducted, eligibility determined, and for an eligible child, the IEP developed, and placement completed within 90 days of receipt of a written referral; and

(2) The IEP Team must determine--

(i) If the child is a child with a disability under NC 1500-2.4; and

(ii) The educational needs of the child.

(d) Exception. The timeframe described in paragraph (c)(1) does not apply to an LEA if--

(1) The parent of a child repeatedly fails or refuses to produce the child for the evaluation;

(2) The parent of a child repeatedly fails or refuses to respond to a request for consent for the evaluation; or

(3) A child enrolls in a school of another LEA after the 90-day timeline has begun, and prior to determination by the child's previous LEA as to whether the child is a child with a disability under NC 1500-2.4.

(e) The exception in paragraph (d)(3) of this section applies only if the subsequent LEA is making sufficient progress to ensure a prompt completion of the evaluation, and the parent and subsequent LEA agree to a specific time when the evaluation will be completed.

NC 1503-2.3 Screening for Instructional Purposes is Not Evaluation

The screening of a student by a teacher or specialist to determine appropriate instructional strategies for curriculum implementation shall not be considered to be an evaluation for eligibility for special education and related services.

(Authority: 20 U.S.C. 1414(a)(1)(E); 34 CFR 300.302)

NC 1503-2.4 Reevaluations

(a) General. A public agency must ensure that the timely reevaluation for each child with a disability is conducted in accordance with NC 1503-2.5 through NC 1503-3.5

(2) If the LEA determines that the educational or related services needs, including improved academic achievement and functional performance, of the child warrant additional evaluation data; or

(3) If the child's parent or teacher requests additional evaluation data.

(b) Limitation. The reevaluation conducted under paragraph (a) of this section--

(1) May occur not more than once a year, unless the parent and the LEA agree otherwise; and

(2) Must occur at least once every three years.

(c) Reevaluation of Children Identified as Developmentally Delayed. The reevaluation of children identified as developmentally delayed shall occur at least once every three years following placement; and prior to turning eight years of age, or prior to entering third grade (whichever comes first).

(Authority: 20 U.S.C. 1414(a)(2); 34 CFR 300.303)

NC 1503-2.5 Evaluation Procedures

(a) Notice. The LEA must provide notice to the parents of a child with a disability, in accordance with NC 1504-1.4, that describes any area in which the LEA proposes to conduct evaluation.

(b) Conducting the evaluation. In conducting the evaluation, the LEA must—

(1) Use a variety of assessment tools and strategies to gather relevant functional, developmental, and academic information about the child, including information provided by the parent, that may assist in determining—

-
- (i) Whether the child is a child with a disability under NC 1500-2.4; and
 - (ii) The content of the child's IEP, including information related to enabling the child to be involved in and progress in the general education curriculum (or for a preschool child, to participate in appropriate activities);
 - (2) Not use any single measure or assessment as the sole criterion for determining whether a child is a child with a disability and for determining an appropriate educational program for the child; and
 - (3) Use technically sound instruments that may assess the relative contribution of cognitive and behavioral factors, in addition to physical or developmental factors.
- (c) Other evaluation procedures. Each LEA must ensure that—
- (1) Assessments and other evaluation materials used to assess a child under these Policies --
 - (i) Are selected and administered so as not to be discriminatory on a racial or cultural basis;
 - (ii) Are provided and administered in the child's native language or other mode of communication and in the form most likely to yield accurate information on what the child knows and can do academically, developmentally, and functionally, unless it is clearly not feasible to so provide or administer;
 - (iii) Are used for the purposes for which the assessments or measures are valid and reliable;
 - (iv) Are administered by trained and knowledgeable personnel; and
 - (v) Are administered in accordance with any instructions provided by the producer of the assessments.
 - (2) Assessments and other evaluation materials include those tailored to assess specific areas of educational need and not merely those that are designed to provide a single general intelligence quotient.
 - (3) Assessments are selected and administered so as best to ensure that if an assessment is administered to a child with impaired sensory, manual, or speaking skills, the assessment results accurately reflect the child's aptitude or achievement level or whatever other factors the test purports to measure, rather than reflecting the child's impaired sensory, manual, or speaking skills (unless those skills are the factors that the test purports to measure).
 - (4) The child is assessed in all areas related to the suspected disability, including, if appropriate, health, vision, hearing, social and emotional status, general intelligence, academic performance, communicative status, and motor abilities;
 - (5) Assessments of children with disabilities who transfer from one LEA to another LEA in the same school year are coordinated with those children's prior and subsequent schools, as necessary and as expeditiously as possible, consistent with NC 1503-2.2(d)(2) and (e), to ensure prompt completion of full evaluations.
 - (6) In evaluating each child with a disability NC 1503-2.5 through NC 1503-2.7, the evaluation is sufficiently comprehensive to identify all of the child's special education and related services needs, whether or not commonly linked to the disability category in which the child has been classified.
 - (7) Assessment tools and strategies that provide relevant information that directly assists persons in determining the educational needs of the child are provided.
- (d) Required screenings and evaluation for eligibility determination.

- (iii) The disability must:
- (A) Have an adverse effect on educational performance, and
 - (B) Require specially designed instruction.
- (11) **Specific Learning Disability**

The method for determining eligibility in the disability category of Specific Learning Disability is the evaluation of multiple sources of assessment data to document low achievement and a child's response to instruction and evidence-based interventions.

A child's responsiveness to instruction and evidence-based intervention is not, when considered alone, a comprehensive evaluation. Teams must draw upon information from multiple sources to conduct a full and individual evaluation and may not rely on any single procedure or source of data for determining eligibility for special education and related services. Based on a preponderance of the data, including the child's academic performance data and rate of progress, the IEP Team must determine that the child requires specially designed instruction.

When using a child's responsiveness to instruction and evidence-based intervention as a component of eligibility decisions for children with Specific Learning Disabilities, the following essential components must be in place:

- A system of high-quality core instruction and evidence-based intervention;
 - Multiple tiers of instruction, that vary in intensity, matched to student need;
 - A systematic process of problem-solving/data-based decision making; and
 - A comprehensive, assessment system that includes common formative assessments, interim/benchmark assessments, outcome assessments, universal screening, progress monitoring and diagnostic assessments.
- (i) A comprehensive evaluation includes the following required screenings and evaluations.
- (A) Hearing screening;
 - (B) Vision screening (far and near acuity);
 - (C) Speech/language screening;
 - (D) Documentation of the results of evidence-based intervention(s) which align to the academic area(s) of concern (e.g. critical components of reading, math, writing, listening comprehension, oral expression, etc.) including progress monitoring data;
 - (E) Summary of conference(s) with parents or documentation of attempts to conference with parents;
 - (F) Review of existing data to include documentation of the systematic problem-solving process (which would include formal and/or informal diagnostic assessments) and observation data of core instruction;
 - (G) Social/developmental history, including any educationally relevant medical findings, a review of disciplinary removals, transiency and attendance/tardy rates;
 - (H) Observation across settings, including core instruction and the setting in which intervention is delivered, to assess academic and functional skills;
 - (I) Multiple sources of educational assessment data, which must include diagnostic and/or standardized norm-referenced measures of achievement (related to the area(s) of concern) and data from progress monitoring. These measures must include relevant comparisons to
-

state and/or national norms, age/grade level peers, and appropriate intervention group comparisons. Additional measures may include common formative assessments, universal screening, interim/benchmark assessments and outcome assessments.

(ii) In order to be eligible in the disability category of specific learning disability, the criteria in subsections (A), (B), (C) and (D) below must be met:

(A) The disability must not be the primary result of:

1. A visual, hearing or motor disability;
2. Intellectual disability;
3. Emotional disturbance;
4. Cultural factors;
5. Environmental or economic influences; and/or
6. Loss of instructional time due to factors that include, but are not limited to absences, tardies, high transiency rates and suspensions.

A child must not be determined to have a specific learning disability if the determinant factor for that determination is any of the following:

1. Limited English Proficiency;
2. Lack of appropriate instruction and evidence-based intervention in reading, including the essential components of reading instruction as defined in Section 1208(3) of the ESEA (i.e. phonemic awareness, phonics, vocabulary, fluency and comprehension); and/or
3. Lack of appropriate instruction and evidence-based intervention in math.

(B) Inadequate academic achievement: Inadequate academic achievement is based on evidence from multiple sources of data indicating the child does not achieve adequately for the age or grade-level standards in which the child is enrolled in one or more of the following areas when provided with learning experiences and instruction appropriate for the child's age or State-approved grade-level standards:

1. Basic reading skills;
2. Reading fluency skills;
3. Reading comprehension;
4. Written expression;
5. Mathematics calculation;
6. Mathematics problem solving;
7. Listening comprehension; or
8. Oral expression.

(C) Insufficient rate of progress: When provided with high-quality core instruction that a majority of students are responding to and evidence-based intervention(s) matched to area(s) of need, the child demonstrates either a lack of response to instruction and intervention or is responding at a rate that is insufficient to reduce their risk of failure after an appropriate period of time.

Documentation of insufficient rate of progress must include:

1. The type, intensity, and duration of identified evidence-based instructional intervention(s)
 - Documentation that the intervention length and frequency is in accordance with the identified research-based criteria that supports effective results;

* Valid and reliable measures of progress monitoring may not be available for the areas of listening comprehension and oral expression. In these cases, teams may use valid and reliable measures of other academic skills that are impacted by the listening comprehension and/or oral expression deficits (i.e., reading, math, written language measures of progress monitoring) to assess a student's rate of progress and the impact of the evidence-based intervention on these academic areas. Additional measures that directly assess progress in listening comprehension and/or oral expression should also be collected to supplement these data.

NC 1503-3 Additional Procedures for Evaluating Children with Specific Learning Disabilities

NC 1503-3.1 Specific Learning Disabilities

- (a) General. The State has adopted, consistent with NC 1503-3.3, criteria for determining whether a child has a specific learning disability as defined in NC 1500-2.4(c)(11). The criteria –
 - (1) Requires the use of a systematic, problem-solving process based on the child’s response to evidence-based interventions (RTI/MTSS) and the evaluation of data (i.e. progress monitoring data) documenting the child’s response to instruction and evidence-based intervention.
- (b) Consistency with State criteria. LEAs must use the State criteria adopted pursuant to paragraph (a) of

this section in determining whether a child has a specific learning disability.

(Authority: 20 U.S.C. 1221e-3; 1401(30); 1414(b)(6); 34 CFR 300.308)

NC 1503-3.2 Additional Group Members

The determination of whether a child suspected of having a specific learning disability is a child with a disability as defined in NC 1500-2.4, must be made by the child’s parents and a team of qualified professionals, which must include—

- (a) (1) The child’s regular teacher; or
- (2) If the child does not have a regular teacher, a regular classroom teacher qualified to teach a child of his or her age; or

- (a) The group described in NC 1503-2.7 may determine that a child has a specific learning disability, as defined in NC 1500-2.4(b)(11), if the child meets the requirements in criteria described previously in section NC 1503-2.5(a) - (c), and (d)(11).
- (b) To ensure that underachievement in a child suspected of having a specific learning disability is not due to lack of appropriate instruction in reading or math, the group must consider, as part of the evaluation described in NC 1503-2.4 through NC 1503-2.6 -
 - (1) Data that demonstrates that prior to, or as a part of the referral process, the child was provided appropriate instruction in regular education settings, delivered by qualified personnel;
 - (2) Documentation that evidence-based interventions addressing the identified area(s) of concern were delivered by qualified personnel; and
 - (3) Data-based documentation of repeated assessments of achievement at reasonable intervals, reflecting formal assessment of student progress during instruction, was provided to the child’s parents.
- (c) The public agency must promptly request parental consent to evaluate the child to determine if the child needs special education and related services, and must adhere to the timeframes described in NC 1503-2.2 and NC 1503-2.4 unless extended by mutual written agreement of the child’s parents and a group of qualified professionals, as described in NC 1503-2.7(a)(1) –

The LEA must take whatever action is necessary to ensure that the parent(s) understands the proceedings of the IEP Team meeting, including arranging for an interpreter for parents with deafness or whose native language is other than English.
 - (f) Parent copy of child's IEP. The LEA must give the parent(s) a copy of the child's IEP at no cost to the parent(s) within a reasonable timeframe following the IEP meeting.

NC 1503-4.4 When IEPs Must be in Effect

- (a) General. At the beginning of each school year, each LEA must have in effect, for each child with a disability within its jurisdiction, an IEP, as defined in NC 1503-4.1.
 - (b) IEP or IFSP for children aged three through five.
 - (1) In the case of a child with a disability aged three through five, the IEP Team must consider an IFSP that contains all IFSP content (including the natural environments statement), described in section 636(d) of the IDEA and its implementing regulations (including an educational component that promotes school readiness and incorporates pre-literacy, language, and numeracy skills for children with IFSPs under this section who are at least three years of age), and that is developed in accordance with the IEP procedures in these Policies. The IFSP may serve as the IEP of the child, if using the IFSP as the IEP is –
 - (i) Consistent with State policy; and
 - (ii) Is agreed to by the agency and the child's parent(s).
 - (2) In implementing the requirements of paragraph (b)(1) of this section, the public agency must –
 - (i) Provide the child's parent(s) a detailed explanation of the differences between an IFSP and an IEP; and
 - (ii) If the parent chooses an IFSP, obtain written informed consent from the parent(s).
 - (c) Initial IEPs; provision of services.
 - (1) Each public agency must ensure that within 90 days of receipt of the referral the initial evaluation will be conducted; eligibility determined; and for an eligible child, the IEP developed, and placement completed.
 - (2) As soon as possible following development of the IEP, special education and related services are made available to the child in accordance with the IEP.
 - (d) Accessibility of child's IEP to teachers and others. Each public agency must ensure that --
 - (1) The child's IEP is accessible to each regular education teacher, special education teacher, related service provider, and other service provider who is responsible for its implementation; and
 - (2) Each teacher and provider described in paragraph (d)(1) of this section is informed of
 - (i) His or her specific responsibilities related to implementing the child's IEP; and
 - (ii) The specific accommodations, modifications, and supports that must be in provided for the child in accordance with the IEP.
 - (e) IEPs for children who transfer public agencies in the same State.
 - (1) If a child with a disability (who has a current IEP that was in effect in a previous LEA in the State) transfers to a new LEA in the State, and enrolls in a new school, the new LEA, in consultation with the parents, must provide FAPE to the child (including services comparable to those described in the child's IEP from the previous LEA), until the new LEA either --
 - (i) Adopts the child's IEP from the previous LEA; or
 - (ii) Develops, adopts, and implements a new IEP that meets the applicable requirements in NC 1503-4.1 through NC 1503-5.1.
 - (2) A student who has been determined eligible in North Carolina using the response to scientific research-based intervention method continues to be a student with a disability and should not be reevaluated for the sole purpose of re-determining eligibility using the discrepancy method.
 - (f) IEPs for children who transfer from another State. If a child with a disability (who has a current IEP
-

that was in effect in a previous public agency in another State) transfers to an LEA in North Carolina, and enrolls in a new school, the new LEA (in consultation with the parents) must provide the child with FAPE (including services comparable to those described in the child's IEP from the previous public agency), until the new LEA --

- (1) Conducts an evaluation pursuant to NC 1503-2.5 through NC 1503-2.7 (if determined to be necessary by the new LEA); and
 - (2) Develops, adopts, and implements a new IEP, if appropriate, that meets the applicable requirements in NC 1503-4.1 through NC 1503-5.1.
- (g) Transmittal of records. To facilitate the transition for a child described in paragraphs (e) and (f) of this section --
- (1) The new LEA in which the child enrolls must take reasonable steps to promptly obtain the child's records, including the IEP and supporting documents and any other records relating to the provision of special education or related services to the child, from the previous LEA or public agency in which the child was enrolled, pursuant to 34 CFR 99.31(a)(2); and
 - (2) The previous LEA or public agency in which the child was enrolled must take reasonable steps to promptly respond to the request from the new public agency.

NC 1503-5 Development of IEP

NC 1503-5.1 Development, Review, and Revision of IEP

- (a) Development of IEP.
- (1) General. In developing each child's IEP, the IEP Team must consider--
 - (i) The strengths of the child;
 - (ii) The concerns of the parents for enhancing the education of their child;
 - (iii) The results of the initial or most recent evaluation of the child; and
 - (iv) The academic, developmental, and functional needs of the child.
 - (2) Consideration of special factors. The IEP Team must--
 - (i) In the case of a child whose behavior impedes the child's learning or that of others, consider the use of positive behavioral interventions and supports, and other strategies, to address that behavior;
 - (ii) In the case of a child with limited English proficiency, consider the language needs of the child as those needs relate to the child's IEP;
 - (iii) In the case of a child who is blind or visually impaired, provide for instruction in Braille and the use of Braille unless the IEP Team determines, after an evaluation of the child's reading and writing skills, needs, and appropriate reading and writing media (including an evaluation of the child's future needs for instruction in Braille or the use of Braille), that instruction in Braille or the use of Braille is not appropriate for the child;
 - (iv) Consider the communication needs of the child, and in the case of a child who is deaf or hard of hearing, consider the child's language and communication needs, opportunities for direct communications with peers and professional personnel in the child's language and communication mode, academic level, and full range of needs, including opportunities for direct instruction in the child's language and communication mode; and
 - (v) Consider whether the child needs assistive technology devices and/or services.
 - (3) Requirement with respect to regular education teacher. A regular education teacher of a child with a disability, as a member of the IEP Team, must, to the extent appropriate, participate in the development of the IEP of the child, including the determination of--
 - (i) Appropriate positive behavioral interventions and supports and other strategies for the child; and
 - (ii) Supplementary aids and services, program modifications, and support for school personnel consistent with NC 1503-4.1(a)(4).
 - (4) Agreement.
-

-
- (i) In making changes to a child's IEP after the annual IEP Team meeting for a school year, the parent of a child with a disability and the public agency may agree not to convene an IEP Team meeting for the purposes of making those changes, and instead may develop a written document to amend or modify the child's current IEP.
 - (ii) If changes are made to the child's IEP in accordance with paragraph (a)(4)(i) of this section, the public agency must ensure that the child's IEP Team is informed of those changes.
 - (5) Consolidation of IEP Team meetings. To the extent possible, the public agency must encourage the consolidation of reevaluation meetings for the child and other IEP Team meetings for the child.
 - (6) Amendments. Changes to the IEP may be made either by the entire IEP Team at an IEP Team meeting or, as provided in paragraph (a)(4) of this section, by amending the IEP rather than by redrafting the entire IEP. A parent must be provided with a revised copy of the IEP with the amendments incorporated.
 - (b) Review and revision of IEPs
 - (1) General. Each LEA must ensure that, subject to paragraphs (b)(2) and (b)(3) of this section, the IEP Team—
 - (i) Reviews the child's IEP periodically, but not less than annually, to determine whether the annual goals for the child are being achieved; and
 - (ii) Revises the IEP, as appropriate, to address--
 - (A) Any lack of expected progress toward the annual goals described in NC 1503-4.1(a)(2), and in the general education curriculum, if appropriate;
 - (B) The results of any reevaluation conducted under NC 1503-2.4;
 - (C) Information about the child provided to, or by, the parents, as described in NC 1503-2.6(a)(2);
 - (D) The child's anticipated needs; or
 - (E) Other matters.
 - (2) Consideration of special factors. In conducting a review of the child's IEP, the IEP Team must consider the special factors described in paragraph (a)(2) of this section.
 - (3) Requirement with respect to regular education teacher. A regular education teacher of the child, as a member of the IEP Team, must, consistent with paragraph (a)(3) of this section, participate in the review and revision of the IEP of the child.
 - (c) Failure to meet transition objectives.
 - (1) Participating agency failure. If a participating agency, other than the public agency, fails to provide the transition services described in the IEP in accordance with NC 1503-4.1(b), the public agency must reconvene the IEP Team to identify alternative strategies to meet the transition objectives for the child set out in the IEP.
 - (2) Construction. Nothing in this part relieves any participating agency, including a State vocational rehabilitation agency, of the responsibility to provide or pay for any transition service that the agency would otherwise provide to children with disabilities who meet the eligibility criteria of that agency.
 - (d) Children with disabilities in adult prisons.
 - (1) Requirements that do not apply. The following requirements do not apply to children with disabilities who are convicted as adults under State law and incarcerated in adult prisons:
 - (i) The requirements contained in section 612(a)(16) of the IDEA and NC 1503-4.1(a)(6) (relating to participation of children with disabilities in general assessments).
 - (ii) The requirements in NC 1502-4.1(b) (relating to transition planning and transition services) do not apply with respect to the children whose eligibility under Part B of the IDEA will end, because of their age, before they will be eligible to be released from prison based on consideration of their sentence and eligibility for early release.
 - (2) Modifications of IEP or placement.
 - (i) Subject to paragraph (d)(2)(ii) of this section, the IEP Team of a child with a disability who is convicted as an adult under State law and incarcerated in an adult prison may modify the child's IEP or placement if the State has demonstrated a bona fide security or compelling penological interest that cannot otherwise be accommodated.
-

-
- (ii) The requirements of NC 1503-4.1 (relating to IEPs), and NC 1501-3.1 (relating to LRE), do not apply with respect to the modifications described in paragraph (d)(2)(i) of this section.

NC 1503-5.2 Private School Placements by LEAs

(a) Developing IEPs.

(1) Before an LEA places a child with a disability in, or refers a child to, a private school or facility, the LEA must initiate and conduct a meeting to develop an IEP for the child in accordance with NC 1502-4.1 through NC 1503-5.1.

(2) The LEA must ensure that a representative of the private school or facility attends the meeting. If the representative cannot attend, the LEA must use other methods to ensure participation by the private school or facility, including individual or conference telephone calls.

(b) Reviewing and revising IEPs.

(1) After a child with a disability enters a private school or facility, any meetings to review and revise the child's IEP may be initiated and conducted by the private school or facility at the discretion of the LEA.

(2) If the private school or facility initiates and conducts these meetings, the LEA must ensure that the parents and an agency representative--

(i) Are involved in any decision about the child's IEP; and

(ii) Agree to any proposed changes in the IEP before those changes are implemented.

(c) Responsibility. Even if a private school or facility implements a child's IEP, responsibility for compliance with this part remains with the LEA and the SEA.

 - (1) The identification, evaluation, and educational placement of the child; and
 - (2) The provision of FAPE to the child.
- (b) Parent participation in meetings.
 - (1) The parents of a child with a disability must be afforded an opportunity to participate in meetings with respect to--
 - (i) The identification, evaluation, and educational placement of the child; and
 - (ii) The provision of FAPE to the child.
 - (2) Each LEA must provide notice consistent with NC 1503-4.3(a)(1) and (b)(1) to ensure that parents of children with disabilities have the opportunity to participate in meetings described in paragraph (b)(1) of this section.
 - (3) A meeting does not include informal or unscheduled conversations involving LEA personnel and conversations on issues such as teaching methodology, lesson plans, or coordination of service provision. A meeting also does not include preparatory activities that LEA personnel engage in to develop a proposal or response to a parent proposal that will be discussed at a later meeting.
- (c) Parent involvement in placement decisions.
 - (1) Each LEA must ensure that a parent of each child with a disability is a member of any group that makes decisions on the educational placement of the parent's child.

NC 1504-1.3 Independent Educational Evaluation

- (a) General.
 - (1) The parents of a child with a disability have the right under these Policies to obtain an independent educational evaluation of the child, subject to paragraphs (b) through (e) of this section.
 - (2) Each LEA must provide to parents, upon request for an independent educational evaluation, information about where an independent educational evaluation may be obtained, and the agency criteria applicable for independent educational evaluations as set forth in paragraph (e) of this section.
 - (3) For the purposes of this subpart--
 - (i) Independent educational evaluation means an evaluation conducted by a qualified examiner who is not employed by the LEA responsible for the education of the child in question; and
 - (ii) Public expense means that the LEA either pays for the full cost of the evaluation or ensures that the evaluation is otherwise provided at no cost to the parent, consistent with NC 1501-2.1.
 - (b) Parent right to evaluation at public expense.
 - (1) A parent has the right to an independent educational evaluation at public expense if the parent
-

-
- disagrees with an evaluation obtained by the LEA, subject to the conditions in paragraphs (b)(2) through (4) of this section.
- (2) If a parent requests an independent educational evaluation at public expense, the LEA must, without unnecessary delay, either--
 - (i) File for a due process hearing to show that its evaluation is appropriate; or
 - (ii) Ensure that an independent educational evaluation is provided at public expense, unless the agency demonstrates in a hearing, pursuant to NC 1504-1.8 through NC 1504-1.14 that the evaluation obtained by the parent did not meet agency criteria.
 - (3) If the public agency files a due process petition to request a hearing and the final decision is that the agency's evaluation is appropriate, the parent still has the right to an independent educational evaluation, but not at public expense.
 - (4) If a parent requests an independent educational evaluation, the public agency may ask for the parent's reason why he or she objects to the public evaluation. However, the public agency may not require the parent to provide an explanation and the public agency may not unreasonably delay either providing the independent educational evaluation at public expense or requesting a due process hearing to defend the public evaluation.
 - (5) A parent is entitled to only one independent educational evaluation at public expense each time the public agency conducts an evaluation with which the parent disagrees.
 - (6) The results of any independent educational evaluation obtained at public expense must be provided to the LEA.
- (c) Parent-initiated evaluations. If the parent obtains an independent educational evaluation at public expense or shares with the public agency an evaluation obtained at private expense, the results of the evaluation--
- (1) Must be considered by the public agency, if it meets agency criteria, in any decision made with respect to the provision of FAPE to the child; and
 - (2) May be presented by any party as evidence at a hearing on a due process complaint under regarding that child.
- (d) Requests for evaluations by hearing officers. If a hearing officer requests an independent educational evaluation as part of a due process hearing, the cost of the evaluation must be at public expense.
- (e) Agency criteria.
- (1) If an independent educational evaluation is at public expense, the criteria under which the evaluation is obtained, including the location of the evaluation and the qualifications of the examiner, must be the same as the criteria that the public agency uses when it initiates an evaluation, to the extent those criteria are consistent with the parent's right to an independent educational evaluation.
 - (2) Except for the criteria described in paragraph (e)(1) of this section, a public agency may not impose conditions or timelines related to obtaining an independent educational evaluation at public expense.

- (d) Sufficiency of request.
- (1) The petition for a due process hearing required by this section must be deemed sufficient unless the party receiving the petition for a due process hearing notifies the hearing officer and the other party in writing, within 15 days of receipt of the petition, that the receiving party believes the petition for a due process hearing does not meet the requirements in paragraph (b) of this section.
 - (2) Within five days of receipt of notification under paragraph (d)(1) of this section, the hearing officer must make a determination on the face of the petition for a due process hearing of whether the petition meets the content requirements of paragraph (b) of this section and must immediately notify the parties in writing of that determination.
 - (3) A party may amend its petition for a due process hearing only if--
 - (i) The other party consents in writing to the amendment and is given the opportunity to resolve the due process hearing issues through a meeting held pursuant to NC 1504-1.11; or

- (f) Other party's response to a petition for a due process hearing. Except as provided in paragraph (e) of this section, the party receiving a petition for a due process hearing must, within 10 days of receiving the petition, send to the other party a response that specifically addresses the issues raised in the petition for a due process hearing.

Use of the model form is not required.
 - (b) Parents, LEAs, and other parties may use the appropriate model form described in paragraph (a) of this section, or another form or other document, so long as the form or document that is used meets, as appropriate, the content requirements in NC 1504-1.9(b) for filing a petition for a due process

NC 1504-1.11 Resolution Process

(a) Resolution meeting.

- (1) Within 15 days of receiving notice of a parent’s petition for a due process hearing, and prior to the initiation of a due process hearing under NC 1504-1.12, the LEA must convene a meeting with the parent and the relevant member or members of the IEP Team who have specific knowledge of the facts identified in the petition that--
 - (i) Includes a representative of the LEA who has decision-making authority on behalf of that LEA; and
 - (ii) May not include an attorney of the LEA unless the parent is accompanied by an attorney. If the parent plans to be accompanied by an attorney under this section, the parent must give prior notice of this fact to the LEA.
- (2) The purpose of the meeting is for the parent of the child to discuss the issues and facts in the due process petition so that the LEA has the opportunity to resolve the dispute that is the basis for the petition for a due process hearing.
- (3) The meeting described in paragraph (a)(1) and (2) of this section need not be held if--
 - (i) The parent and the LEA agree in writing to waive the meeting; or
 - (ii) The parent and the LEA agree to use the mediation process described in NC 1504-1.7.
- (4) The parent and the LEA determine the relevant members of the IEP Team to attend the meeting.

(b) Resolution period.

- (1) If the LEA has not resolved the issues of the due process hearing petition to the satisfaction of the parent within 30 days of the receipt of the due process petition, the due process hearing may occur.
- (2) Except as provided in paragraph (c) of this section, the timeline for issuing a final decision under NC 1504-1.16 begins at the expiration of this 30-day period.
- (3) Except where the parties have jointly agreed to waive the resolution process or to use mediation, notwithstanding paragraphs (b)(1) and (2) of this section, the failure of the parent filing a petition for a due process hearing to participate in the resolution meeting will delay the timelines for the resolution process and due process hearing until the meeting is held.
- (4) If the LEA is unable to obtain the participation of the parent in the resolution meeting after reasonable efforts have been made (and documented using procedures in NC 1503-4.3(d)), the LEA may, at the conclusion of the 30-day period, request that a hearing officer dismiss the parent’s due process petition.
- (5) If the LEA fails to hold the resolution meeting specified in paragraph (a) of this section within 15 days of receiving notice of a parent’s petition for a due process hearing or fails to participate in the resolution meeting, the parent may seek the intervention of a hearing officer to begin the due process hearing timeline.

(c) Adjustments to 30-day resolution period. The 45-day timeline for the due process hearing in NC 1504-1.16(a) starts the day after one of the following events:

- (1) Both parties agree in writing to waive the resolution meeting;
- (2) After either the mediation or resolution meeting starts but before the end of the 30-day period, the parties agree in writing that no agreement is possible;
- (3) If both parties agree in writing to continue the mediation at the end of the 30-day resolution period, but later, the parent or LEA withdraws from the mediation process.

(d) Written settlement agreement. If a resolution to the dispute is reached at the meeting described in paragraphs (a)(1) and (2) of this section, the parties must execute a legally binding agreement that is--

- (1) Signed by both the parent and a representative of the LEA who has the authority to bind the LEA; and
- (2) Enforceable in any State court of competent jurisdiction or in a district court of the United States, or by the SEA, through the State complaint process, pursuant to NC 1504-2.8.

-
- (e) Agreement review period. If the parties execute an agreement pursuant to paragraph (c) of this section, a party may void the agreement within 3 business days of the agreement’s execution.

- (b) Agency responsible for conducting the due process hearing. - (iii) Must possess the knowledge and ability to conduct hearings in accordance with appropriate, standard legal practice; and
- (iv) Must possess the knowledge and ability to render and write decisions in accordance with appropriate, standard legal practice.
- (d) Subject matter of due process hearings. The party requesting the due process hearing may not raise issues at the due process hearing that were not raised in the due process petition filed under NC 1504-1.9, unless the other party agrees.
- (e) Timeline for requesting a hearing. A parent or an LEA must request an impartial due process hearing within one year of the date the parent or the LEA knew or should have known about the alleged action that forms the basis of the due process petition.
- (f) Exceptions to the timeline. The timeline described in paragraph (e) of this section does not apply to a parent if the parent was prevented from filing a due process petition due to--
- (1) Specific misrepresentations by the LEA that it had resolved the problem forming the basis of the due process petition; or
- (2) The LEA’s withholding of information from the parent that was required by these Policies to be provided to the parent.

Nothing in this part restricts or limits the rights, procedures, and remedies available under the Constitution, the Americans with Disabilities Act of 1990, Title V of the Rehabilitation Act of 1973, or other Federal laws protecting the rights of children with disabilities, except that before the filing of a civil action under these laws seeking relief that is also available under section 615 of the IDEA, the procedures under NC 1504-1.8 and NC 1504-1.15 must be exhausted to the same extent as would be required had the action been brought under section 615 of the IDEA.

 - (1) The prevailing party who is the parent of a child with a disability;
 - (2) To a prevailing party who is an SEA or LEA against the attorney of a parent who files a petition for a due process hearing or subsequent cause of action that is frivolous, unreasonable, or without foundation, or against the attorney of a parent who continued to litigate after the litigation clearly became frivolous, unreasonable, or without foundation; or
 - (3) To a prevailing SEA or LEA against the attorney of a parent, or against the parent, if the parent's request for a due process hearing or subsequent cause of action was presented for any improper purpose, such as to harass, to cause unnecessary delay, or to needlessly increase the cost of litigation.
- (b) Prohibition on use of funds.
 - (1) Funds under Part B of the IDEA may not be used to pay attorneys' fees or costs of a party related to any action or proceeding under section 615 of the IDEA.
 - (2) Paragraph (b)(1) of this section does not preclude a public agency from using funds under Part B of the IDEA for conducting an action or proceeding under section 615 of the IDEA.
- (c) Award of fees. A court awards reasonable attorneys' fees under section 615(i)(3) of the IDEA consistent with the following:
 - (1) Fees awarded under section 615(i)(3) of the IDEA must be based on rates prevailing in the community in which the action or proceeding arose for the kind and quality of services furnished. No bonus or multiplier may be used in calculating the fees awarded under this paragraph.
 - (2) (i) Attorneys' fees may not be awarded, and related costs may not be reimbursed in any action or proceeding under section 615 of the IDEA for services performed subsequent to the time of a written offer of settlement to a parent if--
 - (A) The offer is made within the time prescribed by Rule 68 of the Federal Rules of Civil Procedure or, in the case of an administrative proceeding, at any time more than 10 days before the proceeding begins;
 - (B) The offer is not accepted within 10 days; and
 - (C) The court or administrative hearing officer finds that the relief finally obtained by the parents is not more favorable to the parents than the offer of settlement.
 - (ii) Attorneys' fees may not be awarded relating to any meeting of the IEP Team unless the meeting is convened as a result of an administrative proceeding or judicial action.
 - (iii) A meeting conducted pursuant to NC 1504-1.11 shall not be considered--
 - (A) A meeting convened as a result of an administrative hearing or judicial action; or
 - (B) An administrative hearing or judicial action for purposes of this section.

- (4) Except as provided in paragraph (c)(5) of this section, the court reduces, accordingly, the amount

of the attorneys' fees awarded under section 615 of the IDEA, if the court finds that--

- (i) The parent, or the parent's attorney, during the course of the action or proceeding, unreasonably protracted the final resolution of the controversy;
 - (ii) The amount of the attorneys' fees otherwise authorized to be awarded unreasonably exceeds the hourly rate prevailing in the community for similar services by attorneys of reasonably comparable skill, reputation, and experience;
 - (iii) The time spent and legal services furnished were excessive considering the nature of the action or proceeding; or
 - (iv) The attorney representing the parent did not provide to the LEA the appropriate information in the due process request notice in accordance with NC 1504-1.9.
- (5) The provisions of paragraph (c)(4) of this section do not apply in any action or proceeding if the court finds that the State or LEA unreasonably protracted the final resolution of the action or proceeding or there was a violation of section 615 of the IDEA.

NC 1504-1.19 Child's Status During Proceedings

- (a) Except as provided in NC 1504-2.4, during the pendency of any administrative or judicial proceeding regarding a petition requesting a due process hearing under NC 1504-1.8, unless the State or LEA and the parents of the child agree otherwise, the child involved in the hearing must remain in his or her current educational placement.
- (b) If the hearing involves an application for initial admission to public school, the child, with the consent of the parents, must be placed in the public school until the completion of all the proceedings.
- (c) If the hearing involves an application for initial services under these Policies from a child who is transitioning from Part C to Part B and is no longer eligible for Part C services because the child has turned 3, the LEA is not required to provide the Part C services that the child had been receiving. If the child is found eligible for special education and related services under Part B and the parent consents to the initial provision of special education and related services under NC 1503-1.1(b), then the LEA must provide those special education and related services that are not in dispute between the parent and the LEA.
- (d) If the hearing officer in a due process hearing conducted by the Office of Administrative Hearings or a State review official in an administrative appeal agrees with the child's parents that a change of placement is appropriate, that placement must be treated as an agreement between the State and the parents for purposes of paragraph (a) of this section.

NC 1504-1.20 Surrogate Parents

- (a) General. Each LEA must ensure that the rights of a child are protected when--

 - (3) The child is a ward of the State under the laws of North Carolina and the parents' rights have been terminated or their rights to make educational decisions have been terminated by the court; or
 - (4) The child is an unaccompanied homeless youth as defined in section 725(6) of the McKinney-Vento Homeless Assistance Act (42 U.S.C. 11434a(6)).
- (b) Duties of public agency. The duties of an LEA under paragraph (a) of this section include the assignment of an individual to act as a surrogate for the parents. This must include a method--
 - (1) For determining whether a child needs a surrogate parent; and
 - (2) For assigning a surrogate parent to the child.
- (c) Wards of the State. In the case of a child who is a ward of the State, the surrogate parent alternatively may be appointed by the judge overseeing the child's case, provided that the surrogate meets the

requirements in paragraphs (d)(2)(i) and (e) of this section.

- (d) Criteria for selection of surrogate parents. LEAs must ensure that a person selected as a surrogate parent-

 - (2) Has no personal or professional interest that conflicts with the interest of the child the surrogate parent represents; and
 - (3) Has knowledge and skills that ensure adequate representation of the child.
- (e) Non-employee requirement; compensation. A person otherwise qualified to be a surrogate parent under paragraph (d) of this section is not an employee of the agency solely because he or she is paid by the agency to serve as a surrogate parent.
- (f) Unaccompanied homeless youth. In the case of a child who is an unaccompanied homeless youth, appropriate staff of emergency shelters, transitional shelters, independent living programs, and street outreach programs may be appointed as temporary surrogates without regard to paragraph (d)(2)(i) of this section, until a surrogate can be appointed that meets all of the requirements of paragraph (d) of this section.

 - (2) The provision of FAPE to the child.
- (h) SEA responsibility. The SEA must make reasonable efforts to ensure the assignment of a surrogate parent not more than 30 days after an LEA determines that the child needs a surrogate.

 - (iii) The adult student is certified, according to the following procedures, as unable to provide informed consent. Any adult student who is eligible for special education under this section and does not have a representative appointed to make decisions on the adult student's behalf by a court of competent jurisdiction may have an educational representative appointed to act

a. List one includes:

1. a medical doctor licensed in the state where the doctor practices medicine;
2. physician’s assistant whose certification is countersigned by a supervising physician; or
3. a certified nurse practitioner.

b. List two includes:

1. a medical doctor licensed in the state where the doctor practices medicine;

(C) If an adult student has been determined to be incompetent through any of the procedures described in this section, the parent shall be appointed to act as the educational representative for the adult student. If the parent is not available, an adult family member with whom the adult student resides may be appointed. If the adult student does not reside with an adult family member, a person trained as a surrogate parent shall be appointed to serve as the educational representative for the adult student.

(C) Communicate such understanding in any meaningful way.

(v) The certification that an adult student is incapable of providing informed consent may be made as early as 60 calendar days prior to the student’s eighteenth birthday.

(vi) The certification shall state when and how often a review of the adult student’s ability to provide informed consent shall be made and why that time period was chosen.

(vii) The adult student’s ability to provide informed consent must be recertified at any time that the previous certification is challenged. Challenges can be made by the adult student or by anyone with a bona fide interest in and knowledge of the adult student, except that challenges cannot be made by employees of the LEA. Upon receipt of a written challenge, the LEA may not rely on the appointed representative until a new certification that the adult student is unable to provide informed consent has been obtained by the appointed educational representative.

NC 1504-2 Discipline Procedures

NC 1504-2.1 Authority of School Personnel

(a) Case-by-case determination. School personnel may consider any unique circumstances on a case-by-case basis when determining whether a change in placement, consistent with the other requirements

of this section, is appropriate for a child with a disability who violates a code of student conduct. Circumstances considered should include area of disability, functioning level of the child, intent of the behavior, and other relevant factors.

(b) General.

(1) School personnel under this section may remove a child with a disability who violates a code of student conduct from his or her current placement to an appropriate interim alternative educational setting, another setting, or suspension, for not more than 10 consecutive school days (to the extent those alternatives are applied to children without disabilities), and for additional removals of not more than 10 consecutive school days in that same school year for separate incidents of misconduct (as long as those removals do not constitute a change of placement under NC 1504-2.7).

(2) After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, during any subsequent days of removal the public agency must provide services to the extent required under paragraph (d) of this section.

(c) Additional authority. For disciplinary changes in placement that would exceed 10 consecutive school days, if the behavior that gave rise to the violation of the school code is determined not to be a manifestation of the child's disability pursuant to paragraph (e) of this section, school personnel may apply the relevant disciplinary procedures to children with disabilities in the same manner and for the same duration as the procedures would be applied to children without disabilities, except as provided in paragraph (d) of this section.

(d) Services.

(1) A child with a disability who is removed from the child's current placement pursuant to paragraphs (c) or (g) of this section must--

- (i) Continue to receive educational services, as provided in NC 1501-1.1(a), so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP; and
- (ii) Receive, as appropriate, a functional behavioral assessment, and behavioral intervention services and modifications that are designed to address the behavior violation so that it does not recur. If a behavioral intervention plan already has been developed, it must be reviewed and modified, as necessary, to address the behavior.

(2) The services required by paragraph (d)(1), (d)(3), (d)(4), and (d)(5) of this section may be provided in an interim alternative educational setting.

(3) A public agency is only required to provide services during periods of removal to a child with a disability who has been removed from his or her current placement for 10 school days or less in that school year, if it provides services to a child without disabilities who is similarly removed.

(4) After a child with a disability has been removed from his or her current placement for 10 school days in the same school year, if the current removal is for not more than 10 consecutive school days and is not a change of placement under NC 1504-2.7, school personnel, in consultation with at least one of the child's teachers, determine the extent to which services are needed as provided NC 1501-1.1 so as to enable the child to continue to participate in the general education curriculum, although in another setting, and to progress toward meeting the goals set out in the child's IEP.

(5) If the removal is a change of placement under NC 1504-2.7, the child's IEP Team determines appropriate services under paragraph (d)(1) of this section.

(e) Manifestation determination.

(1) Within 10 school days of any decision to change the placement of a child with a disability because of a violation of a code of student conduct, the LEA, the parent, and relevant members of the child's IEP Team (as determined by the parent and the LEA) must review all relevant information in the student's file, including the child's IEP, any teacher observations, and any relevant information provided by the parents to determine--

- (i) If the conduct in question was caused by, or had a direct and substantial relationship to, the child's disability; or
- (ii) If the conduct in question was the direct result of the LEA's failure to implement the IEP.

(2) The conduct must be determined to be a manifestation of the child's disability if the LEA, the

-
- parent, and relevant members of the child's IEP Team determine that a condition in either paragraph (e)(1)(i) or (1)(ii) of this section was met.
- (3) If the LEA, the parent, and relevant members of the child's IEP Team determine the condition described in paragraph (e)(1)(ii) of this section was met, the LEA must take immediate steps to remedy those deficiencies.
- (f) Determination that behavior was a manifestation. If the LEA, the parent, and relevant members of the IEP Team make the determination that the conduct was a manifestation of the child's disability, the IEP Team must--
- (1) Either--
- (i) Conduct a functional behavioral assessment, unless the LEA had conducted a functional behavioral assessment before the behavior that resulted in the change of placement occurred, and implement a behavioral intervention plan for the child; or
- (ii) If a behavioral intervention plan already has been developed, review the behavioral intervention plan, and modify it, as necessary, to address the behavior; and
- (2) Except as provided in paragraph (g) of this section, return the child to the placement from which the child was removed, unless the parent and the LEA, through the IEP Team process, agree to a change of placement.
- (g) Special circumstances. School personnel may remove a student to an interim alternative educational setting for not more than 45 school days without regard to whether the behavior is determined to be a manifestation of the child's disability, if the child--
- (1) Carries a weapon to or possesses a weapon at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA;
- (2) Knowingly possesses or uses illegal drugs, or sells or solicits the sale of a controlled substance, while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA; or
- (3) Has inflicted serious bodily injury upon another person while at school, on school premises, or at a school function under the jurisdiction of an SEA or an LEA.
- (4) Upon the end of the removal to the interim alternative educational setting for not more than 45 school days for reasons (1) through (3) above, the child shall be returned to the placement from which he/she was removed, unless the parent and the LEA, through the IEP Team process, agree to a change of placement.
- (h) Notification. On the date on which the decision is made to make a removal that constitutes a change of placement of a child with a disability because of a violation of the code of student conduct, the LEA must notify the parents of that decision, and provide the parents the procedural safeguards notice described in NC 1504-1.5.
- (i) Definitions. For purposes of this section, the following definitions apply:
- (1) Controlled substances means a drug or other substance identified under schedules I, II, III, IV, or V in section 202(c) of the Controlled Substances Act (21 U.S.C. 812(c)).

NC 1504-2.3 Appeal

- (a) General. The parent of a child with a disability who disagrees with any decision regarding placement under NC 1504-2.1 and NC 1504-2.2, or the manifestation determination under NC 1504-2.1(e), or an LEA that believes that maintaining the current placement of the child is substantially likely to result in injury to the child or others, may appeal the decision by requesting a due process hearing. The hearing is requested by filing a petition pursuant to NC 1504-1.8 and NC 1504-1.9(a) and (b).
- (b) Authority of hearing officer.
 - (1) A hearing officer under NC 1504-1.12 hears and makes a determination regarding an appeal requested under paragraph (a) of this section.
 - (2) In making the determination under paragraph (b)(1) of this section, the hearing officer may--
 - (i) Return the child with a disability to the placement from which the child was removed if the hearing officer determines that the removal was a violation of NC 1504-2.1 or that the child’s behavior was a manifestation of the child’s disability; or
 - (ii) Order a change of placement of the child with a disability to an appropriate interim alternative educational setting for not more than 45 school days if the hearing officer determines that maintaining the current placement of the child is substantially likely to result in injury to the child or to others.
 - (3) The procedures under paragraphs (a) and (b)(1) and (2) of this section may be repeated, if the LEA believes that returning the child to the original placement is substantially likely to result in injury to the child or to others.
- (c) Expedited due process hearing.
 - (1) Whenever a hearing is requested under paragraph (a) of this section, the parents or the LEA involved in the dispute must have an opportunity for an impartial due process hearing consistent with the requirements of NC 1504-1.8 and NC 1504-1.9(a) through (c) and NC 1504-1.11 through NC 1504-1.15, except as provided in paragraph (c)(2) through (4) of this section.

 - (3) Unless the parents and LEA agree in writing to waive the resolution meeting described in paragraph (c)(3)(i) of this section, or agree to use the mediation process described in NC 1504-1.7--
 - (i) A resolution meeting must occur within seven days of the other party’s receiving notice of the due process petition, and
 - (ii) The due process hearing may proceed unless the matter has been resolved to the satisfaction of both parties within 15 days of the other party’s receipt of the due process petition.

NC 1504-2.5 Protections for Children Not Yet Eligible for Special Education and Related Services

- (a) General. A child who has not been determined to be eligible for special education and related services under these Policies and who has engaged in behavior that violated a code of student conduct, may assert any of the protections provided for in these Policies if the LEA had knowledge (as determined in accordance with paragraph (b) of this section) that the child was a child with a disability before the behavior that precipitated the disciplinary action occurred.
- (b) Basis of knowledge. An LEA must be deemed to have knowledge that a child is a child with a disability if before the behavior that precipitated the disciplinary action occurred--
 - (1) The parent of the child expressed concern in writing to supervisory or administrative personnel of the LEA, or a teacher of the child, that the child is in need of special education and related services;
 - (2) The parent of the child requested an evaluation of the child pursuant to NC 1503-1 through NC 1503-3.5;
 - (3) The teacher of the child, or other personnel of the LEA, expressed specific concerns about a pattern of behavior demonstrated by the child directly to the director of special education of the LEA or to other supervisory personnel of the LEA; or
 - (4) The behavior and educational performance of the child clearly and convincingly establishes the need for special education. [Note: Prior disciplinary infractions shall not, standing alone, constitute clear and convincing evidence.]
- (c) Exception. An LEA would not be deemed to have knowledge under paragraph (b) of this section if--
 - (1) The parent of the child--
 - (i) Has not allowed an evaluation of the child pursuant to NC 1503-1 through NC 1503-3.5; or
 - (ii) Has refused services under these Policies; or
 - (2) The child has been evaluated and determined to not be a child with a disability under these Policies.
- (d) Conditions that apply if no basis of knowledge.
 - (1) If an LEA does not have knowledge that a child is a child with a disability (in accordance with paragraphs (b) and (c) of this section) prior to taking disciplinary measures against the child, the child may be subjected to the disciplinary measures applied to children without disabilities who engaged in comparable behaviors consistent with paragraph (d)(2) of this section.
 - (2) (i) If a request is made for an evaluation of a child during the time period in which the child is subjected to disciplinary measures under NC 1504-2.1, the evaluation must be conducted in an expedited manner.
 - (ii) Until the evaluation is completed, the child remains in the educational placement determined by school authorities, which can include suspension or expulsion without educational services.
 - (iii) If the child is determined to be a child with a disability, taking into consideration information from the evaluation conducted by the LEA and information provided by the parents, the LEA must provide special education and related services in accordance with these Policies, including the requirements of NC 1504-2.1 through NC 1504-2.7 and sections 612(a)(1)(A) of the IDEA.

 - (1) An LEA reporting a crime committed by a child with a disability must ensure that copies of the special education and disciplinary records of the child are transmitted for consideration by the appropriate authorities to whom the LEA reports the crime.
 - (2) An LEA reporting a crime under this section may transmit copies of the child's special education and disciplinary records only to the extent that the transmission is permitted by the Family Educational Rights and Privacy Act.

NC 1504-2.7 Change of Placement Because of Disciplinary Removals

- (a) For purposes of removals of a child with a disability from the child's current educational placement under NC 1504-2.1 through NC 1504-2.6, a change of placement occurs if--
 - (1) The removal is for more than 10 consecutive school days; or
 - (2) The child has been subjected to a series of removals that constitute a pattern--
 - (i) Because the series of removals total more than 10 school days in a school year;
 - (ii) Because the child's behavior is substantially similar to the child's behavior in previous incidents that resulted in the series of removals, and
 - (iii) Because of such additional factors as the length of each removal, the total amount of time the child has been removed, and the proximity of the removals to one another.
- (b) (1) The LEA determines on a case-by-case basis whether a pattern of removals constitutes a change in placement.
- (2) This determination is subject to review through due process and judicial proceedings.

NC 1504-2.9 Discipline and Homebound Instruction

- (a) If a change of placement occurs under the discipline requirements of these Policies, an LEA shall not assign a student to homebound instruction without a determination by the student's IEP Team that the homebound instruction is the least restrictive alternative environment for that student. If it is determined that the homebound instruction is the least restrictive alternative environment for the student, the student's IEP Team shall meet to determine the nature of the homebound educational services to be provided to the student. In addition, the continued appropriateness of the homebound instruction shall be evaluated monthly by the designee or designees of the student's IEP Team.
- (b) "Educational services" means all of the following:
 - (1) The necessary instructional hours per week in the form and format as determined by the child's IEP Team and consistent with federal and State law.  - (2) Related services including in the child's IEP.

- (3) Behavior intervention services to the extent required above NC 1504-2.1 (d) and (f).
(c) “Homebound instruction” means educational services provided to a student outside the school setting.

After reserving funds for technical assistance, and for payments to the outlying areas, the freely associated States, and the Secretary of the Interior for a fiscal year, the Secretary allocates the remaining amount among the States in accordance with paragraphs (b), (c), and (d) of this section.
- (b) Special rule for use of fiscal year 1999 amount. If a State received any funds under section 611 of the IDEA for fiscal year 1999 on the basis of children aged three through five, but does not make FAPE available to all children with disabilities aged three through five in the State in any subsequent fiscal year, the Secretary computes the State's amount for fiscal year 1999, solely for the purpose of calculating the State's allocation in that subsequent year under paragraph (c) or (d) of this section, by subtracting the amount allocated to the State for fiscal year 1999 on the basis of those children.
- (c) Increase in funds. If the amount available for allocations to States under paragraph (a) of this section for a fiscal year is equal to or greater than the amount allocated to the States under section 611 of the IDEA for the preceding fiscal year, those allocations are calculated as follows:
- (1) Allocation of increase. —
- (i) General. Except as provided in paragraph (c)(2) of this section, the Secretary allocates for the fiscal year--
- (A) To each State the amount the State received under this section for fiscal year 1999;
- (B) Eighty-five (85) percent of any remaining funds to States on the basis of the States' relative populations of children aged three through 21 who are of the same age as children with disabilities for whom the State ensures the availability of FAPE under Part B of the IDEA; and
- (C) Fifteen (15) percent of those remaining funds to States on the basis of the States' relative populations of children described in paragraph (c)(1)(i)(B) of this section who are living in poverty.
- (ii) Data. For the purpose of making grants under this section, the Secretary uses the most recent population data, including data on children living in poverty, that are available and satisfactory to the Secretary.
- (2) Limitations. Notwithstanding paragraph (c)(1) of this section, allocations under this section are subject to the following:
- (i) Preceding year allocation. No State's allocation may be less than its allocation under section 611 of the Act for the preceding fiscal year.
- (ii) Minimum. No State's allocation may be less than the greatest of--
- (A) The sum of--
- a. The amount the State received under section 611 of the IDEA for fiscal year 1999; and
- b. One third of one percent of the amount by which the amount appropriated under section 611(i) of the IDEA for the fiscal year exceeds the amount appropriated for section 611 of the IDEA for fiscal year 1999;
- (B) The sum of--
- a. The amount the State received under section 611 of the IDEA for the preceding fiscal year; and
- b. That amount multiplied by the percentage by which the increase in the funds appropriated for section 611 of the IDEA from the preceding fiscal year exceeds 1.5 percent; or
- (C) The sum of--
- a. The amount the State received under section 611 of the IDEA for the preceding fiscal year; and
- b. That amount multiplied by 90 percent of the percentage increase in the amount appropriated for section 611 of the IDEA from the preceding fiscal year.
- (iii) Maximum. Notwithstanding paragraph (c)(2)(ii) of this section, no State's allocation under paragraph (a) of this section may exceed the sum of--
- (A) The amount the State received under section 611 of the IDEA for the preceding fiscal year; and
- (B) That amount multiplied by the sum of 1.5 percent and the percentage increase in the amount appropriated under section 611 of the IDEA from the preceding fiscal year.
-

-
- (3) Ratable reduction. If the amount available for allocations to States under paragraph (c) of this section is insufficient to pay those allocations in full, those allocations are ratably reduced, subject to paragraph (c)(2)(i) of this section.
- (d) Decrease in funds. If the amount available for allocations to States under paragraph (a) of this section for a fiscal year is less than the amount allocated to the States under section 611 of the IDEA for the preceding fiscal year, those allocations are calculated as follows:
- (1) Amounts greater than fiscal year 1999 allocations. If the amount available for allocations under paragraph (a) of this section is greater than the amount allocated to the States for fiscal year 1999, each State is allocated the sum of--
- (i) 1999 amount. The amount the State received under section 611 of the IDEA for fiscal year 1999; and
- (ii) Remaining funds. An amount that bears the same relation to any remaining funds as the increase the State received under section 611 of the IDEA for the preceding fiscal year over fiscal year 1999 bears to the total of all such increases for all States.
- (2) Amounts equal to or less than fiscal year 1999 allocations. --
- (i) General. If the amount available for allocations under paragraph (a) of this section is equal to or less than the amount allocated to the States for fiscal year 1999, each State is allocated the amount it received for fiscal year 1999.
- (ii) Ratable reduction. If the amount available for allocations under paragraph (d) of this section is insufficient to make the allocations described in paragraph (d)(2)(i) of this section, those allocations are ratably reduced.

- (xi) To provide technical assistance to schools and LEAs, and direct services, including direct student services, described in section 1003A(c)(3) of the ESEA, to children with disabilities, in schools or LEAs implementing comprehensive support and improvement activities or targeted support and improvement activities under section 1111(d) of the ESEA on the basis of consistent underperformance of the disaggregated subgroup of children with disabilities, including providing professional development to special and regular education teachers who teach children with disabilities, based on scientifically based research to improve educational instruction, in order to improve academic achievement based on the challenging academic standards described in section 1111(b)(1) of the ESEA.
- (3) Local educational agency high cost fund.
- (1) In general--
- (i) For the purpose of assisting LEAs (including a charter school that is an LEA or a consortium of LEAs) in addressing the needs of high need children with disabilities, each State has the option to reserve for each fiscal year 10 percent of the amount of funds the State reserves for other State-level activities under paragraph (b)(1) of this section--

- (ii) For purposes of paragraph (c) of this section, local educational agency includes a charter school that is an LEA, or a consortium of LEAs.
- (2) (i) The State must not use any of the funds the State reserves pursuant to paragraph (c)(1)(i) of this section, which are solely for disbursement to LEAs, for costs associated with establishing, supporting, and otherwise administering the fund. The State may use funds the State reserves under paragraph (a) of this section for those administrative costs.
- (ii) The State must not use more than 5 percent of the funds the State reserves pursuant to paragraph (c)(1)(i) of this section for each fiscal year to support innovative and effective ways of cost sharing among consortia of LEAs.
- (3) (i) The SEA must develop, not later than 90 days after the State reserves funds under paragraph (c)(1)(i) of this section, annually review, and amend as necessary, the State plan for the high cost fund. The State plan must--
- (A) Establish, in consultation and coordination with representatives from LEAs, a definition of a high need child with a disability that, at a minimum--
- a. Addresses the financial impact a high need child with a disability has on the budget of the child's LEA; and

- (B) Establish eligibility criteria for the participation of an LEA that, at a minimum, take into account the number and percentage of high need children with disabilities served by an LEA;

- (D) Develop a funding mechanism that provides distributions each fiscal year to LEAs that meet the criteria developed by the State under paragraph(c)(3)(i)(B) of this section;
- (E) Establish an annual schedule by which the SEA must make its distributions from the high cost fund each fiscal year; and
- (F) If the State elects to reserve funds for supporting innovative and effective ways of cost sharing under paragraph (c)(1)(i)(B) of this section, describe how these funds will be used.
- (ii) The State must make its final State plan available to the public not less than 30 days before
-

-
- the beginning of the school year, including dissemination of such information on the State Web site.
- (4) (i) The SEA must make all annual disbursements from the high cost fund established under paragraph (c)(1)(i) of this section in accordance with the State plan published pursuant to paragraph (c)(3) of this section.
- (ii) The costs associated with educating a high need child with a disability, as defined under paragraph (c)(3)(i)(A) of this section, are only those costs associated with providing direct special education and related services to the child that are identified in that child's IEP, including the cost of room and board for a residential placement determined necessary, consistent with NC 1501-3.1, to implement a child's IEP.
- (iii) The funds in the high cost fund remain under the control of the State until disbursed to an LEA to support a specific child who qualifies under the State plan for the high cost funds or distributed to LEAs, consistent with paragraph (c)(9) of this section.
- (5) The disbursements under paragraph (c)(4) of this section must not be used to support legal fees, court costs, or other costs associated with a cause of action brought on behalf of a child with a disability to ensure FAPE for such child.
- (6) Nothing in paragraph (c) of this section--
- (i) Limits or conditions the right of a child with a disability who is assisted under Part B of the IDEA to receive FAPE pursuant to section 612(a)(1) of the IDEA in the least restrictive environment pursuant to section 612(a)(5) of the IDEA; or
- (ii) Authorizes an SEA or LEA to establish a limit on what may be spent on the education of a child with a disability.
- (7) Notwithstanding the provisions of paragraphs (c)(1) through (6) of this section, a State may use funds reserved pursuant to paragraph (c)(1)(i) of this section for implementing a placement neutral cost sharing and reimbursement program of high need, low incidence, catastrophic, or extraordinary aid to LEAs that provides services to high need children based on eligibility criteria for such programs that were created not later than January 1, 2004, and are currently in operation, if such program serves children that meet the requirement of the definition of a high need child with a disability as described in paragraph (c)(3)(i)(A) of this section.
- (8) Disbursements provided under paragraph (c) of this section must not be used to pay costs that otherwise would be reimbursed as medical assistance for a child with a disability under the State Medicaid program under Title XIX of the Social Security Act.
- (9) Funds reserved under paragraph (c)(1)(i) of this section from the appropriation for any fiscal year, but not expended pursuant to paragraph (c)(4) of this section before the beginning of their last year of availability for obligation, must be allocated to LEAs in the same manner as other funds from the appropriation for that fiscal year are allocated to LEAs during their final year of availability.
- (4) Inapplicability of certain prohibitions. The State may use funds the State reserves under paragraphs (a) and (b) of this section without regard to--

- (5) Special rule for increasing funds. NC 1506-1.4 Subgrants to LEAs

- (a) Subgrants required. Each State that receives a grant under section 611 of the Act for any fiscal year must distribute any funds the State does not reserve under NC 1506-1.3 to LEAs (including public charter schools that operate as LEAs) in the State that have established their eligibility under section 613 of the Act for use in accordance with Part B of the Act. Effective with funds that became

available on July 1, 2009, each State must distribute funds to eligible LEAs, including public charter schools that operate as LEAs, even if the LEA is not serving any children with disabilities.

- (b) Allocations to LEAs. For each fiscal year for which funds are allocated to States under NC 1506-1.2, each State shall allocate funds as follows:
- (1) Base payments. The State first must award each LEA described in paragraph (a) of this section the amount the LEA would have received under section 611 of the IDEA for fiscal year 1999, if the State had distributed 75 percent of its grant for that year under section 611(d) of the IDEA, as that section was then in effect.
 - (2) Base payment adjustments. For any fiscal year after 1999--
 - (i) If a new LEA is created, the State must divide the base allocation determined under paragraph (b)(1) of this section for the LEAs that would have been responsible for serving children with disabilities now being served by the new LEA, among the new LEA and affected LEAs based on the relative numbers of children with disabilities ages 3 through 21, or ages 6 through 21 if a State has had its payment reduced under NC 1506-1.2(b), currently provided special education by each of the LEAs;
 - (ii) If one or more LEAs are combined into a single new LEA, the State must combine the base allocations of the merged LEAs; and
 - (iii) If, for two or more LEAs, geographic boundaries or administrative responsibility for providing services to children with disabilities ages 3 through 21 change, the base allocations of affected LEAs must be redistributed among affected LEAs based on the relative numbers of children with disabilities ages 3 through 21, or ages 6 through 21 if a State has had its payment reduced under NC 1506-1.2, currently provided special education by each affected LEA.
 - (iv) If an LEA received a base payment of zero in its first year of operation, the SEA must adjust the base payment for the first fiscal year after the first annual child count in which the LEA reports that it is serving any children with disabilities. The State must divide the base allocation determined under paragraph (b)(1) of this section for the LEAs that would have been responsible for serving children with disabilities now being served by the LEA, among the LEA and affected LEAs based on the relative numbers of children with disabilities ages 3 through 21, or ages 6 through 21 currently provided special education by each of the LEAs. This requirement takes effect with funds that became available on July 1, 2009.
 - (3) Allocation of remaining funds. After making allocations under paragraph (b)(1) of this section, as adjusted by paragraph (b)(2) of this section, the State must--
 - (i) Allocate 85 percent of any remaining funds to those LEAs on the basis of the relative numbers of children enrolled in public and private elementary schools and secondary schools within the LEA's jurisdiction; and
 - (ii) Allocate 15 percent of those remaining funds to those LEAs in accordance with their relative numbers of children living in poverty, as determined by the SEA.
- (c) Reallocation of LEA funds.
- (1) If the SEA determines that an LEA is adequately providing FAPE to all children with disabilities residing in the area served by that agency with State and local funds, the SEA may reallocate any portion of the funds under this part that are not needed by that LEA to provide FAPE, to other LEAs in the State that are not adequately providing special education and related services to all children with disabilities residing in the areas served by those other LEAs. The SEA may also retain those funds for use at the State level to the extent the State has not reserved the maximum amount of funds it is permitted to reserve for State-level activities pursuant to NC 1506-1.3.
 - (2) After the SEA distributes funds under this part to an eligible LEA that is not serving any children with disabilities, as provided in paragraph (a) of this section, the SEA must determine, within a reasonable period of time prior to the end of the carryover period in 34 CFR 76.709, whether the LEA has obligated the funds. The SEA may reallocate any of those funds not obligated by the LEA to other LEAs in the State that are not adequately providing special education and related services to all children with disabilities residing in areas served by those other LEAs. The SEA may also retain those funds for use at the State level to the extent the State has not reserved the
-

maximum amount of funds it is permitted to reserve for State-level activities pursuant to NC 1506-1.3.

NC 1506-1.5 Behavior Support Services

(a) Funding.

- (1) Behavioral Support Service Funds (PRC 29) are allotted on a needs basis. All requests for funds must include a completed Behavioral Support Service Funding Request form (with appropriate signatures) and a copy of the student's IEP. The IEP shall address all the required components as delineated in NC1503-5.1.
- (2) Funds are designated as add-on funds. They are to be used to make the "critical difference" in the successful development and implementation of the IEP. These funds may not be used to supplant or replace other funding sources (e.g., state aid exceptional children funds). They are to be used only to provide services to children with disabilities and accompanying chronic and acute behavioral/emotional needs including students previously served by Department of Health and Human Services as Willie M class members. Requests for funds are evaluated according to the following criteria.
 - (i) Prioritization will be given to innovative and creative grant proposals that are designed to make the critical difference to ensure successful IEP implementation and positions and services previously funded through state aid to local administrative units (PRC 29) that have been effective in providing behavioral support services essential to enhance educational performance of children with disabilities and accompanying chronic and acute behavioral/emotional needs. Examples of innovative programming include, but are not limited to:
 - (A) Parent outreach efforts;
 - (B) Efforts to return dropouts to school;
 - (C) Extended school day programming;
 - (D) Job skill acquisition linked to academic success
 - (E) Interagency programming designed to implement a "24-hour" plan;
 - (F) Involvement of community/business agencies and personnel;
 - (G) Staff development;
 - (H) Alternative programming that addresses both academics and pro-social behavior;
 - (I) Direct, systematic instruction that increases instructional time;
 - (J) Preventive and proactive efforts to decrease the use of out-of-school suspensions for students with disabilities;
 - (K) Peer involvement and positive role modeling;
 - (L) Crisis intervention/liaison specialist;
 - (M) Assessment/prescriptive specialist to assist in programming.
 - (ii) The following variables will be given priority consideration when determining justification for LEA grant allocations:
 - (A) Specified group home(s), residential treatment center(s), therapeutic home(s), and Individual Residential Treatment (IRT);
 - (B) Number of children with disabilities and accompanying chronic and acute special behavioral/emotional needs whose domicile and enrollment in the LEA is attributable to the provision of residential treatment services;
 - (C) Presence of day treatment program;
 - (D) Presence of a student(s) with a low incidence, high cost disability;
 - (E) Presence of a student with disabilities and accompanying chronic and acute special behavioral/emotional needs;
 - (F) Utilization of previous funds;
 - (G) Other unique situations not described above.
- (3) Funds not utilized as approved must be returned as soon as it is determined that the needs

-
- stipulated and funded by the original grant proposal no longer exist or have been modified.
- (b) In case of cooperative treatment and education programs in which the program is located in a facility other than a public school building, the following procedures will apply:
- (1) Any student who attends the program for his/her full educational services will be counted in the ADM of the local school administrative unit which is supervising the program until the student returns to full-time status in his/her sending school administrative unit;
 - (2) Any student who attends the day treatment and educational program on a part-time basis will remain in the ADM of the sending school administrative unit.
- (c) Monitoring. The Department of Public Instruction through the Exceptional Children Division will monitor all local school administrative units and/or other facilities that are providing educational services to determine if the program is appropriate to meet the needs of the child.

NC 1506-1.6 Community Residential Centers

Funds for Community Residential Centers.

- (a) State categorical funds will be allocated to the LEA based on a child count of eligible children with disabilities receiving their special education and related service in a community residential center. The child count(s) will be done by the local education agency where the community residential center is located. Funding for special education and related services in the community residential center will be approved only after the IEP Team in the local education agency where the community residential center is located has determined that the least restrictive environment is the community residential center. If it is determined that the least restrictive environment is the local education agency, the community residential center will be ineligible for educational funding.
- (b) The local education agency may request the per child allocation for one year for any child served in the community residential school program prior to entering the local education agency. These funds are allocated only when funds are available.
- (c) Transportation for all children served in the local education agency residing in a community residential center shall be borne by the local education agency.
- (d) The rate of funds per child shall be determined by the Exceptional Children Division. The rate of funds will be allocated at a per child rate determined annually by the Exceptional Children Division and School Financial Services. Special Community Residential Center funds are based on the actual months of service up to 180 school days and may include extended school year when it is deemed appropriate by the IEP Team and written into the child's IEP. Funds shall be used to provide for educational and related services, including personnel, supplies, materials and educational equipment.
- (e) The amount of funds allocated to the community residential centers per child and per month will be based on a recommendation to the Associate Superintendent for Financial Services by the Director of the Exceptional Children Division.
- (f) The local education agency where the community residential center is located shall certify to the State Board of Education that the educational placement has been approved by the IEP Team.
- (g) The residential placement in a community residential center must be approved by the community residential center and IEP Team before a special education placement can be considered.
- (h) All children approved for residential services in the community residential center must have the least restrictive environment determined by the IEP Team in the local education agency where the community residential center is located.
- (i) All withdrawals of children served in community residential centers must be submitted monthly (no later than 10 days after withdrawal has occurred) to the Director of the Exceptional Children Division. If another child is approved for placement in a community residential center the child's name, date of birth, disabling condition, and date added to roster must accompany the withdrawal notification which lists the child's name, date of birth, disabling condition, local education agency where parents/guardians have legal residence, and date of withdrawal.
- (j) May 15th of each year is the deadline for submission of these applications.

NC 1506-1.7 Developmental Day Centers

Developmental Day Centers.

- (a) State categorically appropriated funds will be allocated to local education agencies at a per month per child rate determined annually by the Exceptional Children Division and Financial and Personnel Services. Special developmental day center funds are based on the actual months of service up to 180 school days and shall provide for educational services, including personnel, supplies, materials and educational equipment for children with disabilities ages three through 21.
- (b) Local education agencies whose developmental day center expenditures per child exceed the rate approved by the State Board may provide for the additional cost from other available funds.
- (c) Once a child is transferred from the developmental day center and is to be served in the local education agency by agreement between the two governing bodies, the local education agency will then be eligible for an allocation at a per month per child rate established by the Exceptional Children Division if funds are available under two conditions:
 - (1) A school age child (five through 21) who was placed in a developmental day center and is now being served by the local education agency. These funds are for the initial year of the transfer only. This provision is not for disabled preschool children placed in developmental day centers for preschool disability services who are now entering the local education agency at age five for kindergarten; and
 - (2) Local education agencies that have developmental day programs that have closed and there are no other developmental day programs available. The local education agency is entitled only to the amount of funding received the previous year. The allocation is for preschool and school age children with disabilities served in the center that closed.
- (d) Children served in developmental day centers may be counted for federal funds.
- (e) Developmental day center child counts, external to local education agencies, are not included in the projected regular average daily membership.
- (f) If the decision is to place the child in the developmental day center(s), the local education agency must submit the following information to the Exceptional Children Division:
 - (1) Name of center;
 - (2) Number of children;
 - (3) Name and date of birth of each child;
 - (4) Type of disabling condition of each child;
 - (5) Rate per month per child (including a breakdown of center's educational costs per month for teachers' salaries, fringe benefits, support services such as occupational therapists, physical therapists, speech, etc.);
 - (6) Copy of contract/agreement with center;
 - (7) All required information (i-vi) must be submitted to Director, Exceptional Children Division, for review and approval. Following review and approval by the Exceptional Children Division, Financial Services will be notified to allocate funds to the requesting local education agency.

- (a) NCDPI shall reserve an amount annually of state funding to provide special education and related services for the first-year placement of children with disabilities in residential group homes.
- (b) A local education agency is eligible for group home funds for the initial year of group home

placement only if the child has not been counted in either the December 1 or revised April 1 child counts or projected regular average daily membership. After the initial enrollment, the local education agency serving the child will count the child and will be eligible for the state and federal add-ons approved on a prorated annual basis. Only children who have been determined eligible for special education and related services prior to entering the group home are eligible for group home funds. A child who is determined eligible for special education and related services after entering the group home is not eligible for group home funds.

- (c) Special allotments for children who have not been counted by local education agencies for educational allocations will be made on a pro rata annual basis according to the following formula:
 - (1) Regular allocation;
 - (2) State add-on (children with disabilities);
 - (3) Federal add-on (Title VI-B only); plus
- (d) Upon application for funds for initial year of placement, each local education agency shall submit to the Director of the Exceptional Children Division:

NC 1506-1.9 Out-of-District Placements

Out-Of-District Placements. The State Board of Education (or its designee) may approve the use of the reserve fund toward the payment of the excess cost of the placement of a child in a program not operated by the local board of education within funds available and subject to the following conditions:

- (a) State Board of Education review reveals that the local education agency has approved alternative placement and the education agency finds it is necessary for the child to be placed in a program not operated by the local board of education in order to receive an educational program or service which will appropriately meet the child's special educational needs;
- (b) The local education agency must fund an amount equal to the sum of the following per pupil allocations:
 - (1) The state's regular per pupil allocation for school-aged children;
 - (2) The state's add-on per pupil allocation for exceptional children; plus
 - (3) The federal per pupil allocation for exceptional children.

If the sum of those per pupil allocations does not cover the cost of the alternative placement, then the reserve fund may be approved, but in no case, will the reserve fund pay more than fifty percent of the total cost of the alternative placement. Any cost then remaining must be assumed by the local education agency, using any local, state or federal funds approvable for such expenditure. Financial Services, State Department of Public Instruction, shall reimburse the local board of education for any reserve funds approved by the State Board of Education.

- (c) Funds must be used only to provide special education and related services costs; residential costs; and extended school year when it has been determined by the IEP committee that extended year is required as part of the IEP. Funds must not be used for medical, custodial, or day care services.

-
- (d) When a private residential placement has been determined to be the most appropriate placement for a child with a disability, all in-state residential programs should be the first consideration of placement. The local education agency should exhaust all possible in-state residential placements before placing a child out-of-state. All children placed in out-of-district school settings are entitled to the same rights and procedural safeguards as provided to those children whose IEPs are implemented in the local education agency.
 - (e) Any application for a special reserve fund allocation must be submitted prior to enrolling the child in the program.
 - (f) Each out-of-district placement must be reviewed annually. Continued placement must be based on the least restrictive educational placement.
 - (g) All withdrawals from out-of-district placements must be reported no later than 10 days after the withdrawal has occurred. The withdrawal notification must include the child's name, date of birth, disabling condition, and date of withdrawal. Additional children cannot be placed in programs of children who have withdrawn from enrollment. A complete application for placement must be submitted to the Exceptional Children Division.

 - (6) Additional special education and related services needed for each student.
- (b) Applications may be submitted annually if the level of needs persist.
- (c) Priority is given to those students needing nursing, personal care, and assistive technology.
- (d) May 15th of each year is the deadline for submission

NC 1506-1.12 Special Small Schools

Special Small Schools

- (a) Provision is made for a separate allotment of teachers to be used in programs serving children with disabilities from more than one local school administrative unit;
- (b) Special allotments may be made to selected local boards of education for teachers to serve children with disabilities for the following purposes:

NC 1506-1.13 Transportation

- (a) Local boards of education are responsible for providing or paying the costs of transportation for children with disabilities enrolled in schools or programs in their local school systems and are responsible for providing or paying the costs of transportation to any private residential or non-residential program, if the student has been placed in or assigned to that private program by the local board of education. Transportation funds for this purpose may be provided through local boards of education annual transportation budget allotments which are administered by the School Support Division, North Carolina Department of Public Instruction. These funds are incorporated in the general transportation plan of each local board. For preschool children with disabilities, payment of such transportation costs must be made from either federal or state preschool program funds.
- (b) If a child with disabilities is assigned to or enrolled in any residential or non-residential program operated by or under the jurisdiction or control of the Department of Health and Human Services, the Department of Correction or the Department of Juvenile Justice and Delinquency Prevention, the Department operating the program or having the program under its jurisdiction or control is responsible for providing or paying the costs of transportation. This is applicable for programs for school age students with disabilities as well as programs for preschool children with disabilities. The only exception is when a child is enrolled in a local school system and is counted for funding purposes by the school system but attends a class or classes at a Department of Health and Human Services program. In this case, the local school system is responsible for providing the transportation to the Department of Health and Human Services program and return to the local school system or home.
- (c) If a local area mental health center places a child with disabilities in an educational program, the local area mental health center shall pay for the transportation of the child to/from the program.
- (d) The costs of transportation for a child with disabilities placed in or assigned to a school or program outside the state shall be paid by the local educational agency or state operated agency placing or assigning the child in that school or program.
- (e) In no event shall reimbursement for the costs of transportation paid for any one child exceed the School Support Division allowance per mile unless it is demonstrated by the child or his/her parent that such limitation will work a hardship or is unreasonable. This justification must be approved by the local educational agency and appropriate state agency.

NC 1507-8 Subgrants to LEAs

Each State that receives a grant under section 619 of the Act for any fiscal year must distribute all of the grant funds the State does not reserve under NC 1507-5 to LEAs in the State that have established their eligibility under section 613 of the Act. Effective with funds that become available July 1, 2009, each State must distribute funds to eligible LEAs that are responsible for providing education to children aged three through five years, even if the LEA is not serving any preschool children with disabilities.

Note: Public charter schools in North Carolina are not eligible for section 619 grant funds because the state statute prohibits charter schools from operating preschools.

(Authority: 20 U.S.C. 1419(g); 34 CFR 300.815)

NC 1507-9 Allocations to LEAs

- (a) Base payments. The SEA must first award each LEA described in NC 1507-8 the amount that agency would have received under section 619 of the IDEA for fiscal year 1997 if the SEA had distributed 75 percent of its grant for that year under section 619(c)(3), as such section was then in effect.
- (b) Base payment adjustments. For fiscal year 1998 and beyond--
 - (1) If a new LEA is created, the SEA must divide the base allocation determined under paragraph (a) of this section for the LEAs that would have been responsible for serving children with disabilities now being served by the new LEA, among the new LEA and affected LEAs based on the relative numbers of children with disabilities ages three through five currently provided special education by each of the LEAs;
 - (2) If one or more LEAs are combined into a single new LEA, the SEA must combine the base allocations of the merged LEAs; and
 - (3) If for two or more LEAs, geographic boundaries or administrative responsibility for providing services to children with disabilities ages three through five changes, the base allocations of affected LEAs must be redistributed among affected LEAs based on the relative numbers of children with disabilities ages three through five currently provided special education by each affected LEA.
 - (4) If an LEA received a base payment of zero in its first year of operation, the SEA must adjust the base payment for the first fiscal year after the first annual child count in which the LEA reports

that it is serving any children with disabilities aged three through five years. The State must divide the base allocation determined under paragraph (a) of this section for the LEAs that would have been responsible for serving children with disabilities aged three years through five years currently provided special education for each of the LEAs. This requirement takes effect with funds that became effective July 1, 2009.

- (c) Allocation of remaining funds. After making allocations under paragraph (a) of this section, the SEA must—
- (1) Allocate 85 percent of any remaining funds to those LEAs on the basis of the relative numbers of children enrolled in public and private elementary schools and secondary schools within the LEA's jurisdiction; and
 - (2) Allocate 15 percent of those remaining funds to those LEAs in accordance with their relative numbers of children living in poverty, as determined by the SEA.
- (d) Use of best data. For the purpose of making grants under this section, the SEA must apply on a uniform basis across all LEAs the best data that are available to it on the numbers of children enrolled in public and private elementary and secondary schools and the numbers of children living in poverty.

(Authority: 20 U.S.C. 1419(g)(1); 34 CFR 300.816)

NC 1507-10 Reallocation of LEA Funds

- (a) If the SEA determines that an LEA is adequately providing FAPE to all children with disabilities aged three through five years residing in the area served by the LEA with State and local funds, the SEA may reallocate any portion of the funds under section 619 of the Act that are not needed to provide FAPE, to other LEAs in the State that are not adequately providing special education and related services to all children with disabilities aged three to five years residing in the areas served by those other LEAs. The SEA may also retain those funds for use at the State level to the extent the State has not reserved the maximum amount of funds it is permitted to reserve for State-level activities pursuant to NC 1507-5.
- (b) After the SEA distributes section 619 funds to an eligible LEA that is not serving any children with disabilities aged three through five years, as provided in NC 1507-8, the SEA must determine, within a reasonable period of time prior to the end of the carryover period in 34 CFR 76.709, whether the LEA has obligated the funds. The SEA may reallocate any of those funds not obligated by the LEA to other LEAs in the State that are not adequately providing special education and related service to all children with disabilities aged three through five years residing in the areas served by those other LEAs. The SEA may also retain those funds for use at the State level to the extent the State has not reserved the maximum amount of funds it is permitted to reserve for State-level activities pursuant to NC 1507-5.

NC 1508-1 Class Size: School Age and Preschool

The class size or caseload of a special education teacher, speech-language pathologists, and related services provider

shall:

- (1) allow for the implementation of each assigned student's IEP that must address both academic progress (i.e. access and progress in the general curriculum, including participation in district-wide and state-wide assessments) and functional performance;
 - (2) be determined by the nature and severity of the student's disability;
 - (3) be determined by the students' developmental levels (for preschool children), ages or grade placements;
 - (4) be determined by the type and intensity of services required by the IEP; and
 - (5) be determined by the actual number of tasks that the special education teachers/service provider must complete in addition to daily instructional activities (workload); and
 - (6) be within the prescribed requirements of Appendices A and B of this section.
- (b) Compliance with this policy shall be monitored through the continuous improvement focused monitoring system, the LEA's Self-Assessment, and the dispute resolution process.
- (c) Whenever the pupil-teacher ratio for a class period/caseload exceeds the requirements of this section, the class size enrollment form and request for waiver must be submitted to the Exceptional Children Division.

NC 1508-2

Student/Teacher Ratio for Preschool Children with Disabilities

- (a) Regular Early Childhood Program (RECP), Separate, and Other Settings: Caseload requirements must be flexible enough to provide for appropriate services in direct accord with the children's identified needs. Consideration must be given to each child's developmental level, severity of disability, and nature and level of services required to allow children to progress at appropriate learning rates in accomplishing specific goals. RECP (Inclusive) and Separate Settings that serve preschool children with disabilities should not exceed a ratio of 6 children to 1 adult. For more severely delayed children, additional assistants and/or lower adult-child ratios may be necessary to serve children.
- (b) Residential setting: up to 5 children, 1 teacher; 6 to 8 children, 1 teacher, 1 assistant; 9 to 12 children, 1 teacher, 2 assistants.
- (c) Itinerant Preschool Services: Services to preschool children with disabilities are often provided by itinerant teachers and therapists in settings outside school center-based programs such as private childcare, non-LEA administered Head Start, faith-based preschools, in homes, etc. Although no minimum or maximum caseload is defined, it must be flexible enough to provide for appropriate services as described in the child's individualized education program.
