Each dropout event is counted; a single student may drop out in more than one year and be counted more than once.

- The NC data from 133 school systems (117 LEAs and charter schools) reflects a gradual steady decline in dropout rates over the past five years.
- Pitt County's average dropout rate for the past five years for Grades 9-12 is 7.08%. Utilizing a formula of multiplying the rate x 4 (high school years), a percentage is obtained that is an indicator of students lost to dropout. For Pitt County, $7.08 \times 4 = 28.32\%$. This percentage indicates that if this rate continues, we project to lose to dropout 28.32% (or 3 out of 10) of the students who start Grade 9 before they complete Grade 12.

The NC data from LEAs and charter schools reflects a slight decrease in dropout rates this year.

Pitt County's average dropout rate for the past six years for Grades 9-12 is 6.92%. Utilizing a formula of multiplying the rate x 4 (high school years), a percentage is obtained that is an indicator of students lost to dropout. For Pitt County, $6.92 \times 4 = 27.68\%$. This percentage indicates that if this rate continues, we project to lose to dropout 27.68% (or approximately 3 out of 10) of the students who start Grade 9 before they complete Grade 12.

Each dropout event is counted: a single student may drop out in more than one year and be counted more than once.

The data from LEAs and charter schools reflects a slight increase in the dropout rate this year across North Carolina.

Pitt County's average dropout rate for the past six years for Grades 9-12 is 6.66%. Utilizing a formula of multiplying the rate x 4 (high school years), a percentage is obtained that is an indicator of students lost to dropout. For Pitt County, $6.66 \times 4 = 26.66\%$. This percentage indicates that if this rate continues, we project to lose to dropout 26.66% (or approximately 1 out of 4) of the students who start Grade 9 before they complete Grade 12.
