*The data used to prepare these reports are collected from multiple sources and "drawn" at different times in a school year. Therefore the raw number that supports a percentage listed could vary in a given year. For example, the number of licensed personnel with advanced degrees could be data drawn in October and the number equal 300. Racial data may not be drawn until April and at that point the number may have increased to 320. In addition, racial data reflects all employees in the count and does not represent a difference between part time and full time employees.*
